STRENGTHS

- ***Market leading position in the Gold Loan business in India with pan-India reach and branch network***

Gold loans are the core products in MFL's asset portfolio. Its experience, through their Promoters, has enabled them to have a leading position in the Gold Loan business in India. MFL is the largest gold financing company in India in terms of loan portfolio as of March 31, 2021 according to the ICRA Analytics Industry Report 2021. The loan portfolio as of March 31, 2021 comprised approximately 84.1 lakh loan accounts, in India with Gold Loans outstanding of Rs 51,926.57 crore. The branch network has expanded significantly in recent years from 373 branches as of March 31, 2005 to 4,617 branches as of December 31 2021. Due to its early entry, they have built a recognizable brand in the rural and semi-urban markets of India. The average disbursed Gold Loan amount outstanding was Rs 61,743 per loan account as of March 31, 2021 while interest rates on the Gold Loans usually range between 12.00% and 24.00% per annum.

- ***Strong brand name, track record, management expertise and Promoter support***

MFL's operating history has evolved over a period of 82 years. The experience, skills and goodwill acquired by the Promoters over these years cannot be easily replicated by competitors. Its highly experienced and motivated management team capitalizes on this heritage at both the corporate and operational levels. The senior management team has extensive experience in the Gold Loan industry and has demonstrated the ability to grow the business through their operational leadership, strategic vision and ability to raise capital. Under the current management team, the loan assets portfolio has grown from Rs 3,369.01 crore as of March 31, 2009 to Rs 52,622.34 crore as of March 31, 2021

- ***High-quality customer service and robust operating systems***

MFL adheres to a strict set of market survey and location guidelines when selecting branch sites to ensure that its branches are set up close to the customers. Each of the branches across India is staffed with persons who possess local knowledge and understanding of customers' needs and who are trained to appraise collateral and disburse loans within a few minutes. MFL's high quality customer service and short response time are significant competitive strengths that differentiate its services and products from those provided by commercial banks. Furthermore, since the loans are all over-collateralized by gold jewelry, there are minimal documentary and credit assessment requirements, thereby shortening the turnaround time.

- ***Strong capital raising ability to fund a high profitability business model***

MFL has a track record of successfully raising capital from various sources at competitive costs. It regularly issued secured redeemable non-convertible debentures to retail investors, earlier on a private placement basis and now through public issue route as a means to access capital for its Gold Loan business. MFL believes that it is able to raise capital from retail investors because of its leadership, goodwill, trust, reputation, track record, performance, stability in the business and strong quality asset portfolio. As of March 31, 2019, 2020 and 2021 its outstanding borrowings from banks and financial institutions were Rs 13,104.28 crore, Rs 14,577.46 crore and Rs 19,833.14 crore respectively. It has developed stable long-term relationships with its lenders, and established a track record of timely servicing its debts.

- ***In-house training capabilities to meet the branch expansion requirements***

MFL's ability to timely appraise the quality of the gold jewelry collateral is critical to the business. It does not engage third parties to assess the collateral for the Gold Loans, but instead employs in-house staff for this purpose. MFL's in-house training has built up a talent pool that enables it to staff new branches with qualified and skilled personnel as it seeks to grow its branch network. The in-house training capabilities also enable it to improve the skill sets of the existing personnel.
