### **SECTION 3: RISK FACTORS**

Investment in non-convertible securities involve a degree of risk and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under Section 3 of this General Information Document. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor's decision to purchase such securities.

The following are the risks relating to the Company, the Debentures and the market in general envisaged by the management of the Company. Potential Investors should carefully consider all the risk factors in this General Information Document and/or Key Information Document and / or the Private Placement Offer cum Application Letter for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures but does not represent that the statements below regarding risks of holding the Debentures are exhaustive. The ordering of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Investors should also read the detailed information set out elsewhere in this General Information Document and/or Key Information Document and / or the Private Placement Offer cum Application Letter and reach their own views prior to making any investment decision.

#### **REPAYMENT IS SUBJECT TO THE CREDIT RISK OF THE ISSUER.**

Potential Investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential Investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

#### **THE SECONDARY MARKET FOR DEBENTURES MAY BE ILLIQUID.**

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential Investors may have to hold the Debentures until redemption to realize any value.

#### **CREDIT RISK & RATING DOWNGRADE RISK**

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential Investors may incur losses on revaluation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms.

#### **TAX CONSIDERATIONS AND LEGAL CONSIDERATIONS**

Special tax considerations and legal considerations may apply to certain types of investors. Potential Investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

#### **ACCOUNTING CONSIDERATIONS**

Special accounting considerations may apply to certain types of taxpayers. Potential Investors are urged to

consult with their own accounting advisors to determine implications of this investment.

**MATERIAL CHANGES IN REGULATIONS TO WHICH THE ISSUER IS SUBJECT COULD IMPAIR THE ISSUER'S ABILITY TO MEET PAYMENT OR OTHER OBLIGATIONS.**

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

**LEGALITY OF PURCHASE**

Potential Investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that potential Investor with any law, regulation or regulatory policy applicable to it.

**POLITICAL AND ECONOMIC RISK IN INDIA**

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

**RISKS RELATED TO THE BUSINESS OF THE ISSUER**

**1. *Non-Performing Assets (NPA)***

The Company makes provisions for NPAs in accordance with the provisions prescribed by the RBI. The Company believes that its overall financial profile and capitalization levels provide significant risk mitigation. However, the occurrence of NPAs or an increase in the level of NPAs may adversely affect the Company's business, financial results and/or operations.

**2. *Interest Rate Risk.***

The Company's interest income from lending is dependent upon interest rates and their movement. Interest rates are highly sensitive to many factors beyond the control of the Company, including the monetary policies of the RBI, domestic and international economic and political conditions, inflation and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility. Consequently, there can be no assurance that significant interest rate movements will not have an adverse effect on the Company's financial results and/or operations.

**3. *Access to Capital Market and Commercial Borrowings***

With the growth of its business, the Company will increasingly rely on funding from the debt capital markets and commercial borrowings. The Company's growth and financial performance will depend on its continued ability to access funds at competitive rates which in turn will depend on various factors including its ability to maintain its credit ratings.

**4. *Operational and System Risk***

The Company is faced with operational and system risks, which may arise because of various factors, viz., improper authorizations, failure of employees to adhere to approved procedures, inappropriate documentation, failure in maintenance of proper security policies, frauds, inadequate training and employee errors. Further, the Company also faces security risk in terms of system failures, information system disruptions, communication systems failure which involves certain risks like data loss, breach of confidentiality and adverse effect on business continuity and network security.

If any of the systems do not operate properly or are disabled or if other shortcomings or failures in internal processes or systems are to arise, this could affect the Company's operations and/or result in financial loss, disruption of the Company's businesses, regulatory intervention and/or damage to its reputation. In addition, the Company's ability to conduct business may be adversely impacted by a disruption (i) in the infrastructure that supports its businesses and (ii) in the localities in which it is located.

**5. *Any inability of the company to attract or retain talented professionals may impact its business operations***

The business in which the Company operates is very competitive and ability to attract and retain quality talent impacts the successful implementation of growth plans. The Company may lose business opportunities and its business would suffer if such required manpower is not available on time. The inability of the Company to replace manpower in a satisfactory and timely manner may adversely affect its business and future financial performance.

**6. *Employee Misconduct***

Any kind of employee misconduct may impair the Company's ability to service clients. It is not always possible to deter employee misconduct and the precautions the Company takes to detect and prevent this activity may not be effective in all cases.

**7. *Downgrading in credit rating***

The Company cannot guarantee that any rating will not be downgraded. In the event of deterioration in the financial health of the Company, there is a possibility that the rating agency may downgrade the rating of the Debentures. In such cases, potential investors may have to take losses on re-valuation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms. Such a downgrade in the credit rating may lower the value of the Debentures and/or the Company's ability to meet its obligations in respect of the Debentures could be affected.

**8. *Debenture Redemption Reserve***

NBFCs registered with RBI are exempt from the requirement of creation of debenture redemption reserve in respect of privately placed debentures. Pursuant to this rule, the Company does not intend to create any such reserve funds for the redemption of the Debentures.

**9. *Action upon default***

The Debentures are proposed to be secured / unsecured (as shall be set out in the relevant Key Information Document). In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may take action as per the terms of Debenture Trust Deed and the relevant Security Document.

**10. *Tax and other Considerations***

Special tax, accounting and legal considerations may apply to certain types of potential investors. Potential investors are urged to consult with their own financial, legal, tax and other professional

advisors to determine any financial, legal, tax and other implications of an investment into the Debentures.

**11. *The Debentures may be illiquid***

The Company intends to list the Debentures on the WDM segment of BSE and / or NSE. The Company cannot provide any guarantee that the Debentures will be frequently traded on the Stock Exchange and that there would be any market for the Debentures. It is not possible to predict if and to what extent a secondary market may develop for the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

**12. *Future legal and regulatory obstructions***

Future government policies and changes in laws and regulations in India (including their interpretation and application to the operations of the Company) and comments, statements or policy changes by any regulator and any regulatory action, including but not limited to SEBI or RBI, may adversely affect the Debentures, and restrict the Company's ability to do business. The timing and content of any new law or regulation is not within the Company's control and such new law, regulation, comment, statement or policy change could have an adverse effect on its business, financial results and/or operations. Further, SEBI, the relevant Stock Exchange(s) or other regulatory authorities may require clarifications on this General Information Document and/or relevant Key Information Document and / or the Private Placement Offer cum Application Letter, which may cause a delay in the issuance of Debentures or may result in the Debentures being materially affected or even rejected.

**13. *A slowdown in economic growth in India***

The Company's performance and the quality and growth of its assets are necessarily dependent on the health of the overall Indian economy. A slowdown in the Indian economy may adversely affect its business, including its ability to enhance its asset portfolio and the quality of its assets, and its ability to implement certain measures could be adversely affected by a movement in interest rates, or various other factors affecting the growth of industrial, manufacturing and services sector or a general downtrend in the economy. Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact the Company's ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available.

**RISKS IN RELATION TO THE SECURITY CREATED IN RELATION TO THE DEBT SECURITIES. FURTHER, ANY RISKS IN RELATION TO MAINTENANCE OF SECURITY COVER OR FULL RECOVERY OF THE SECURITY IN CASE OF ENFORCEMENT**

**(a) Security and Guarantee may be insufficient to redeem the Secured Debentures**

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Secured Debentures, the Debenture Trustee may enforce the Security and/or invoke the Guarantee as per the terms of security documents, and other related documents executed in relation to the Secured Debentures. The Debenture Holder(s)' recovery in relation to the Secured Debentures will be subject to (i) the market value of such Security (ii) finding willing buyers for the Security at a price sufficient to repay the Debenture Holder(s)' amounts outstanding under the Secured Debentures. There is a risk that the value realised from the enforcement of the Security may be insufficient to redeem the Secured Debentures.

Even though the Secured Debentures are to be secured to the extent of at least 100% (One Hundred percent) of the principal and interest amount or as per the terms of this General Information Document, in favor of

the Debenture Trustee, the recovery of 100% of the amount shall depend on the market scenario prevalent at the time of enforcement of the security.

## **RISKS RELATING TO THE DEBENTURES**

### **1. *Debentures that are listed or quoted or admitted to trading may not lead to greater liquidity***

It is not possible to predict if and to what extent a secondary market may develop in the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in this General Information Document and/or Key Information Document and / or the Private Placement Offer cum Application Letter, application has been made to list or quote or admit to trading the Debentures on the stock exchange or quotation system(s) specified. If the Debentures are so listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading. The listing of the Debentures is subject to receipt of the final listing and trading approval from the Stock Exchange.

The more limited the secondary market is, the more difficult it may be for holders of the Debentures to realise value for the Debentures prior to redemption of the Debentures.

### **2. *Changes in government policies and laws in India may adversely affect the Debentures***

Future government policies and changes in laws and regulations in India and comments, statements or policy changes by any regulator, including but not limited to the SEBI or the RBI, may adversely affect the Debentures. The timing and content of any new law or regulation is not within the Company's control and such new law, regulation, comment, statement or policy change could have an adverse effect on market for and the price of the Debentures.

### **3. *Political instability or changes in the government could delay further liberalization of the Indian economy and adversely affect economic conditions in India generally***

Since 1991, successive Indian governments have pursued policies of economic liberalization. The role of the Central and State Governments in the Indian economy as producers, consumers and regulators has remained significant. If there was to be any slowdown in the economic policies, or a reversal of steps already taken, it could have an adverse effect on the debt market which as such is exposed to the risks of the Indian regulatory and policy regime.

### **4. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the Debentures.***

Our ability to pay interest accrued on the Debentures and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the Debentures and/or the interest accrued thereon in a timely manner or at all.

### **5. *There may be no active market for the non-convertible debentures on the WDM segment of the stock exchange. As a result, the liquidity and market prices of the non-convertible debentures may fail to develop and may accordingly be adversely affected.***

There can be no assurance that an active market for the Debentures will develop. If an active market for the Debentures fails to develop or be sustained, the liquidity and market prices of the Debentures may be adversely affected. The market price of the Debentures would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country; (ii) the market for listed debt securities; (iii) general economic conditions;

and (iv) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the Debentures, which may trade at a discount to the price at which you purchase the Debentures and/or be relatively illiquid.

**REFUSAL OF LISTING OF ANY SECURITY OF THE ISSUER DURING LAST THREE YEARS BY ANY OF THE STOCK EXCHANGES IN INDIA OR ABROAD**

As of date, the Issuer has not been refused in listing of any security during the last 3 years by any of the stock exchanges in India or abroad and therefore, this would not be applicable.

**LIMITED OR SPORADIC TRADING OF NON-CONVERTIBLE SECURITIES OF THE ISSUER ON THE STOCK EXCHANGES;**

As of date, we are not aware of any limited or sporadic trading of the non-convertible securities of the Issuer on the stock exchanges.

**IN CASE OF OUTSTANDING DEBT INSTRUMENTS OR DEPOSITS OR BORROWINGS:**

#### **Credit Underwriting**

- After identifying a prospective borrower and before putting up the proposal for approval, Marketing / Field Executive(s) verify/assess the borrower's repayment capacity and ability to pay in adverse situations. Analysis is also done to establish the credit worthiness of the Guarantor. First field investigation is done by the field executives which covers the following:
  - Physical verification of Residence/Place of business
  - Verification with address proofs
  - Verification with property and income proofs
  - Verification with previous track record or Bank statements etc.

(This General Information Document is neither a prospectus nor a statement in lieu of a prospectus)

- Credibility of the borrower & Guarantor in the locality where they reside
- Authentication of documents submitted for verification
- Whether the borrower's requirements are in line with the Company's credit policy, (in terms of funding, rate of interest, tenure, vehicle make & model etc.)
- Earning capacity of the vehicle, in terms of its viability, route of operation, segment/industry in which it operates and its prospects etc.

- IKF focuses on clients who have formal contracts with contractors/ companies. After going through the FI findings, the field executives with the help of back office operations staff put up the proposal for approval of Branch Manager. The Executive must physically verify the vehicle before sending the proposal.
- KYC information is shared with the HO credit team through TAB application to carry out the verification of all the KYC documents with API integration with various services providers and to run the internal de-dupe

And a CIBIL check. The company doesn't have a defined matrix for CIBIL score, the strings are analysed to understand the credit behaviour of the client. Simultaneously, the credit team is assigning the case to a Field Investigation agency for external valuation. DD team feels that the process of CIBIL check could be standardised. A defined matrix of credit score along with deviation matrix could improve the system.

- The Branch Manager Analyses the proposal based on the findings of Field executive(s) and documents submitted, cross verifies the information furnished with information from his sources. In Hyderabad region, the BM can take a credit opinion from other financiers on phone.
- The BM forwards the proposal along with his comments/recommendations to Credit Department for approval through TAB Application.
- On receiving proposal from Branch, the credit department scrutinizes the documents submitted by the borrower and Guarantor and verifies their authenticity with the online data available on the Internet. For example:
  - PAN Card / Income Tax Returns with Income Tax website
  - Driving License / Vehicle Details with RTA Website
  - Voter Card with Election Commission website
  - Property Tax Paid with Municipal / Corporation Website
  - Property Details with Registration / Revenue Dept Websites.
  - Bank Statements with respective Banks
  - Repayment track with other Financiers / Bankers

This is followed by tele verification of both the Borrower and Guarantor to check the information furnished and their requirement. The credit department also checks if the customer falls in the negative list or if it is of a negative profile.

Viability test of the vehicle is based on the route it plies and the rates prevalent in the market. Assessment of the income of the borrower is based on the FI report and tele verification.

### **Field Investigation**

Field investigation is conducted by an external FI agency. Different FI agencies have been empanelled by IKF in different regions. FI agencies are managed from the HO. Only credit team is authorized to call for this external FI.

Field investigation involves a physical verification of borrower's address, assessment of his socioeconomic condition, obtaining feedback from neighbours and local people and verification of

the documents submitted. The FI agency is also expected to check the contract letter, bank statement and vehicle viability.

### **External valuation of vehicle**

Valuation of vehicle is required in case of a used vehicle and is done by empanelled valuers who have experience in assessing value of used commercial vehicles. Payment to these valuers is done by the client, which is in line with the general market practice.

Valuation report contains details of the vehicle including vehicle identification details, registration details, permit and tax details, insurance details, status of the RC book, condition of the vehicle and estimated market value of the customer. Report is submitted along with 4(Front, back and one side, other side and chassis number) photographs of the vehicle and a tracing of the engine and chassis number.

### **Vehicle Finance Grid**

As per the policy, at the time of funding each used vehicle, the lower of the following is taken as vehicle value for ascertaining the finance amount

- (i) Vehicle Grid Values
- (ii) Valuation given by the Certified Valuer / Surveyor

#### **Preparation of Vehicle finance grid**

IKF maintains different vehicle financing grids for different regions. Grid values are determined based on market feedback and company's experience of selling repossessed vehicles. Grid values are proposed by State Heads and approved by the Senior Management. The grid is updated at least every 6 months or as and when need arises. Loan to values are based on the vehicle type and the borrower category. At regular intervals, the grid value for funding of used vehicle is ascertained based on following process:

- Collection of data regarding resale deals happening in the market in consultation with transport operators, consultants, brokers, mechanics etc. in respect of various vehicles, model wise
- Collection of data regarding valuation of various vehicles, model wise, from certified valuers/surveyors
- Collection of data regarding maximum and minimum vehicle values (IDVs) from various Insurers
- Collection of Vehicle grid values of various NBFCs

The company arrives at the model wise vehicle grid values after analysing the data so collected and compares it with the data of repossessed vehicles sold by the company in the recent past to arrive at the final grid.

### **Loan Disbursement**

#### **Sanctioning Authority for Approval**

Credit officers approve the loan if the proposal is in line with the company's credit policy. Cases with any deviation are referred to Managing / Executive Director.

#### **Disbursements**

All disbursements are through cheques. An invoice is issued immediately after disbursement. Ideally the disbursement is done only after endorsement of the hypothecation in the RC book of the vehicle.

However, to maintain the TAT to remain competitive in the market, all documents required for the endorsement of hypothecation are collected and loan is disbursed.

### Endorsement of hypothecation

Endorsement of hypothecation in Insurance and RC book should be completed within 90 days of disbursement. IKF tries to ensure that Insurance & Registration is done through them to avoid delay in collection of post disbursement documents (PDDs). Branch Manager/Incharge takes personal responsibility for collection of such PDDs.

### Delinquency Management

Collection mechanism is well defined. The collection team includes branch back office staff, tele calling recovery executives, recovery executive at the branch and the recovery manager and the Collection Head.

IKF has introduced Tab based digital collections process in the recent past to keep pace of the challenges posed by COVID related disruptions.

Besides, the Company has been encouraging the borrowers to opt for digital payment modes, like payments through NACH, RTGS, NEFT, UPI etc modes

As such, the majority of the collections are being managed through the digital modes.

Every recovery team member is assigned cases as per the below matrix and is answerable if any account crosses the stipulated DPD / Bucket.

All the Accounts are assigned to the recovery executives based on their geographical operational area. Besides adopting legal means, IKF has a special recovery cell (SRC) whose responsibility is to persuade the borrowers to settle their accounts amicably. **Brief note on the credit underwriting process**

Customers are mainly sourced through direct and indirect marketing and distribution channels:

1. Leads generated by the Marketing Team
2. Walk-in Customers
3. Existing Customers / Guarantors
4. References secured from existing Customers / Guarantors

Indirect – through external sources

1. Dealer References
2. DSAs
3. Brokers / Consultants

The management's emphasis is on sourcing business from the existing customers and their references.

**Credit Underwriting**

After identifying a prospective borrower and before putting up the proposal for approval, Marketing / Field Executive(s) verify/assess the borrower's repayment capacity and ability to pay in adverse situations. Analysis is also done to establish the credit worthiness of the Guarantor. First field investigation is done by the field executives which covers the following:

Physical verification of Residence/Place of business

- Verification with address proofs

- Verification with property and income proofs
- Verification with previous track record or Bank statements etc.
- Credibility of the borrower & Guarantor in the locality where they reside
- Authentication of documents submitted for verification Whether the borrower's requirements are in line with the Company's credit policy, (in terms of funding, rate of interest, tenure, vehicle make & model etc.) Earning capacity of the vehicle, in terms of its viability, route of operation, segment/industry in which it operates and its prospects etc.

IKF focuses on clients who have formal contracts with contractors/ companies. After going through the FI findings, the field executives with the help of back office operations staff put up the proposal for approval of Branch Manager. The Executive must physically verify the vehicle before sending the proposal.

KYC information is shared with the HO credit team through TAB application to carry out the verification of all the KYC documents with API integration with various services providers and to run the internal de-dupe and a CIBIL check. The company doesn't have a defined matrix for CIBIL score, the strings are analysed to understand the credit behaviour of the client. Simultaneously, the credit team is assigning the case to a Field Investigation agency for external valuation. DD team feels that the process of CIBIL check could be standardised. A defined matrix of credit score along with deviation matrix could improve the system.

The Branch Manager Analyses the proposal based on the findings of Field executive(s) and documents submitted, cross verifies the information furnished with information from his sources. In Hyderabad region, the BM can take a credit opinion from other financiers on phone.

The BM forwards the proposal along with his comments/recommendations to Credit Department for approval through TAB Application.

On receiving proposal from Branch, the credit department scrutinizes the documents submitted by the borrower and Guarantor and verifies their authenticity with the online data available on the Internet. For example:

- PAN Card / Income Tax Returns with Income Tax website
- Driving License / Vehicle Details with RTA Website
- Voter Card with Election Commission website
- Property Tax Paid with Municipal / Corporation Website
- Property Details with Registration / Revenue Dept Websites.
- Bank Statements with respective Banks
- Repayment track with other Financiers / Bankers

This is followed by tele verification of both the Borrower and Guarantor to check the information furnished and their requirement. The credit department also checks if the customer falls in the negative list or if it is of a negative profile.

Viability test of the vehicle is based on the route it plies and the rates prevalent in the market. Assessment of the income of the borrower is based on the FI report and tele verification.

### **Field Investigation**

Field investigation is conducted by an external FI agency. Different FI agencies have been empanelled by IKF in different regions. FI agencies are managed from the HO. Only credit team is authorized to call for this external FI.

Field investigation involves a physical verification of borrower's address, assessment of his socioeconomic condition, obtaining feedback from neighbours and local people and verification of the documents submitted. The FI agency is also expected to check the contract letter, bank statement and vehicle viability.

### **External valuation of vehicle**

Valuation of vehicle is required in case of a used vehicle and is done by empanelled valuers who have experience in assessing value of used commercial vehicles. Payment to these valuers is done by the client, which is in line with the general market practice. DD team feels that the payment to valuers should be made by the company, to avoid any conflict of interest.

Valuation report contains details of the vehicle including vehicle identification details, registration details, permit and tax details, insurance details, status of the RC book, condition of the vehicle and estimated market value of the customer. Report is submitted along with 4(Front, back and one side, other side and chassis number) photographs of the vehicle and a tracing of the engine and chassis number.

### **Vehicle Finance Grid**

As per the policy, at the time of funding each used vehicle, the lower of the following is taken as vehicle value for ascertaining the finance amount

- (i) Vehicle Grid Values
- (ii) Valuation given by the Certified Valuer / Surveyor

### **Preparation of Vehicle finance grid**

IKF maintains different vehicle financing grids for different regions. Grid values are determined based on market feedback and company's experience of selling repossessed vehicles. Grid values are proposed by State Heads and approved by the Senior Management. The grid is updated at least every 6 months or as and when need arises. Loan to values are based on the vehicle type and the borrower category. At regular intervals, the grid value for funding of used vehicle is ascertained based on following process:

Collection of data regarding resale deals happening in the market in consultation with transport operators, consultants, brokers, mechanics etc. in respect of various vehicles, model wise

Collection of data regarding valuation of various vehicles, model wise, from certified valuers/ surveyors

Collection of data regarding maximum and minimum vehicle values (IDVs) from various Insurers

Collection of Vehicle grid values of various NBFCs

The company arrives at the model wise vehicle grid values after analysing the data so collected and compares it with the data of repossessed vehicles sold by the company in the recent past to arrive at the final grid.

### **Loan Disbursement**

#### **Sanctioning Authority for Approval**

Credit officers approve the loan if the proposal is in line with the company's credit policy. Cases with any deviation are referred to Managing / Executive Director.

### **Disbursements**

All disbursements are through cheques. An invoice is issued immediately after disbursement. Ideally the disbursement is done only after endorsement of the hypothecation in the RC book of the vehicle.

However, to maintain the TAT to remain competitive in the market, all documents required for the endorsement of hypothecation are collected and loan is disbursed.

### **Endorsement of hypothecation**

Endorsement of hypothecation in Insurance and RC book should be completed within 90 days of disbursement. IKF tries to ensure that Insurance & Registration is done through them to avoid delay in

collection of post disbursement documents (PDDs). Branch Manager/Incharge takes personal responsibility for collection of such PDDs.

#### **Brief of Automation and digitization of business/ lending operations:**

##### **1) Collection/Recovery Management**

IKF has introduced Tab based digital collections process in the recent past to keep pace of the challenges posed by COVID related disruptions.

Besides, the Company has been encouraging the borrowers to opt for digital payment modes, like payments through NACH, RTGS, NEFT, UPI etc modes

As such, the majority of the collections are being managed through the digital modes.

##### **2) Credit Monitoring**

IKF proactively assesses the risk associated with its various loan products and has evolved a variety of Risk Management and Monitoring Tools, while dealing with a wide spectrum of retail customers and the same are being monitored through web based digital application.

##### **3) Due diligence searches**

IKF has tied up with various database sharing agencies like CIBIL EQUifax etc integration through API

Due diligence of customers and Vehicle is carried out centrally at Corporate Office located at Hyderabad and Registered Office located at Vijayawada. Verification of KYC documents, CIBIL internal de-dupe etc. will be done by the Credit and Risk Team besides verification of Bank statements and existing repayment track record/s of the borrowers.

##### **4) Sanction / disbursement process**

Credit & Risk team appraises the proposal, after taking in to consideration the FI report of the External empanelled agencies, based on its merits.

After sanction, the credit proposal is forwarded to the operational wing for disbursement.

The whole process is automated and is being carried out through the digital platform – TAB application.

After ensuring that promoters' contribution is brought upfront and adequacy of the legal documents, the disbursement is affected through NEFT / RTGS to the borrowers bank account.

IKF uses direct and indirect methods of business sourcing. Direct method includes origination through its branches, approaching new borrowers through existing borrowers and borrower references and guarantors. Sourcing through DSAs and Dealers is part of indirect sourcing. Further the company sources three wheelers and two wheelers through franchise route on loss sharing basis. The company has about 148 branches spread across 9 states. All these branches are controlled by two centralized offices located at Hyderabad and

Vijayawada. IKF originates all kind of used and new commercial vehicle, utility vehicle, construction equipment, tractor and car loans.

#### Credit Appraisal Systems

##### For business generated through direct and indirect sourcing:

IKF has a centralized credit appraisal system from two locations, Hyderabad and Vijayawada. The initial credit assessment of the prospective borrowers is gathered through local Field Investigation (FI) officer at each branch. IKF has an in-house FI team. FI officer does physical verification of borrower's address, assesses the socio-economic condition of the borrower, obtains feedback from neighbours and local people and also verifies the documents submitted. Post FI, branch in-charge / manager also does assessment through his own network and IKF has also appointed external agency for field investigation. Thus in total 3 levels of field investigations are conducted. IKF does not disburse any loan unless the prospective borrower ropes in a guarantor and sometimes also asks for a co-applicant, who is an earning family member. The credit check is also performed for co-borrower or guarantor. IKF also insists on ownership of residential property by immediate family members which provides residential stability. The credit appraisal memo (CAM) of the prospective borrower along with the all the necessary documents become part of the borrower's file maintained for each borrower. After all the documents are collected, the file is sent to respective centralized office either at Hyderabad or Vijayawada depending on source of branch. At centralised office, all the documents in the file are verified before it is sent to the credit team. The credit team at centralised office gives the next level of approval based on underwriting criteria for each product and different types of customers. The credit team has a matrix for computation of permissible Loan-to-Value (LTV) ratio based on the type of the vehicle, profile of the borrower and repayment track record. The borrower is classified as a First Time User (FTU), First Time Borrower (FTB), Transporter Borrower, or a Captive Borrower. In case of any deviation, case is sent to either the managing director or executive director for approval. Management reviews the policies as and when market conditions demand.

##### For Business generated through Franchise Route:

IKF has tie-ups with various establishments and generates business through franchise route for their two-wheeler and three-wheeler portfolio which operates on 100% loss cover basis. These franchisees are running their own portfolio along with the generating business for other NBFCs. IKF has been running this model in a limited manner with these franchises since 2000. Currently, IKF has tie-up with about XXX franchisees present in Andhra Pradesh, Gujarat and Telangana. This model is now replicated for the majority of business sourced in these states. Since 2000 IKF has never incurred any loss in the franchise business. For the portfolio generated for IKF, these establishments are fully responsible for the underwriting of loans and subsequent collections. However, the underwriting standards are laid down by IKF. IKF takes 10% of the disbursed loan as a security deposit for all loans generated. The deposit will not be adjusted in sync with amortization of the loan and it will be with IKF over the life of the loan. Franchisees also act as additional guarantors over and above the primary guarantor and are responsible for making good any loss caused to IKF in case on non-repayment by borrowers. As per the contract, IKF receives the monthly instalment irrespective of borrower paying the instalment to the franchisee. After completion of credit appraisal by the franchisee, the file is sent to IKF's credit team which then verifies the documents and disbursement is made if all documents are in order. To mitigate risk of business failure of the franchisee IKF is running this program only in the geographies where it has presence and experience. If the franchisee is unable to collect the dues IKF retains the option of using its network to collect the dues from the borrowers. In case of non-recovery, IKF can initiate repossession of the vehicles
