6.2 MANAGEMENT PERCEPTION OF RISK FACTORS:

The following are the risks relating to the Company, the Debentures and the market in general envisaged by the management of the Company. Potential Investors should carefully consider all the risk factors stated in this Private Placement Offer cum Application Letters for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures. Potential Investors should also read the detailed information set out elsewhere in this Private Placement Offer cum Application Letters and reach their own views prior to making any investment decision.

GENERAL RISKS

RISKS IN RELATION TO THE NON-CONVERTIBLE SECURITIES:

(a) Repayment is subject to the credit risk of the Issuer.

Potential Investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential Investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

(b) The secondary market for non-convertible securities may be illiquid. Limited or sporadic trading of non-convertible securities of the Issuer on the stock exchanges.

The non-convertible securities may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the non-convertible securities, it is not likely to provide significant liquidity. Potential Investors may have to hold the Debentures until redemption to realize any value. Further, as of date, we are not aware of any limited or sporadic trading of the non-convertible securities of the Issuer on stock exchanges and therefore, this would not be applicable.

(c) Credit Risk & Rating Downgrade Risk; Regulatory Capital Risk

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential Investors may incur losses on revaluation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms.

(d) Changes in interest rates may affect the price of Debentures.

All securities where a fixed rate of interest is offered, such as this Issue, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the pricing of the Debentures.

(e) Tax Considerations and Legal Considerations:

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

Special tax considerations and legal considerations may apply to certain types of investors. Potential Investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

(f) Accounting Considerations:

Special accounting considerations may apply to certain types of taxpayers. Potential Investors are urged to consult with their own accounting advisors to determine implications of this investment.

**RISKS IN RELATION TO THE SECURITY CREATED IN RELATION TO THE DEBT SECURITIES.
FURTHER, ANY RISKS IN RELATION TO MAINTENANCE OF SECURITY COVER OR FULL
RECOVERY OF THE SECURITY IN CASE OF ENFORCEMENT**

(g) Security may be insufficient to redeem the Debentures

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the Security as per the terms of security documents, and other related documents executed in relation to the Debentures. The Debenture Holder(s)' recovery in relation to the Debentures will be subject to (i) the market value of such Security (ii) finding willing buyers for the Security at a price sufficient to repay the Debenture Holder(s)' amounts outstanding under the Debentures. There is a risk that the value realised from the enforcement of the Security may be insufficient to redeem the Debentures.

(h) Material changes in regulations to which the Issuer is subject could impair the Issuer's ability to meet payment or other obligations.

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

(i) Legality of Purchase

Potential Investors in the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of their incorporation or the jurisdiction in which they operate or for compliance by that potential Investor with any law, regulation or regulatory policy applicable to it.

(j) Political and Economic Risk In India

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

6.3 RISKS RELATED TO THE BUSINESS OF THE ISSUER

- (a) ***Majority of the Issuer's loans are unsecured and the clients of these unsecured loans are of the high risk category and if the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the Issuer's loan loss reserves are insufficient to cover future loan losses, the financial condition and results of operations may be materially and adversely affected.***

A majority of the Issuer's loans are unsecured, and the clients of these unsecured loans are of the high risk category. There is uncertainty on the client's ability to fulfil its loan obligations it can be difficult to verify all client details and assess the risk. Such non-performing or low credit quality loans can negatively impact our results of operations.

The Issuer has various procedures and process controls in place to mitigate the risk. As of December 31, 2025, the gross NPA (defined as loans that are more than 90 Days Past Due) was INR 3.94 Crores on a gross portfolio of INR 808.95.

- (b) ***The Issuer cannot assure that it will be able to effectively control and reduce the level of the NPAs of the loans made by the Company as a lender. The amount of its reported NPAs may increase in the future as a result of growth of the loans made by the Company as a lender, and also due to factors beyond its control, such as over-extended member credit that it is unaware of. If the Issuer is unable to manage NPAs or effect recoveries will result in operations being adversely affected.***

The current loan loss reserves of the Issuer may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of the loans made by the Company as a lender. As a result, if the quality of its total loan portfolio deteriorates the Issuer may be required to increase its loan loss reserves, which will adversely affect its financial condition and results of operations.

The Issuer's members largely belong to low-income segment and, as a result, might be vulnerable if economic conditions worsen or growth rates decelerate in India, or if there are natural disasters such as floods and droughts in areas where the Issuer's members live. Moreover, there is no precise method for predicting loan and credit losses, and the Issuer cannot assure that its monitoring and risk management procedures will effectively predict such losses or that loan loss reserves will be sufficient to cover actual losses. If the Issuer are unable to control or reduce the level of its NPAs or poor credit quality loans, its financial condition and results of its operations could be materially and adversely affected.

- (c) ***Large scale attrition, especially at the senior management level, can make it difficult for the Issuer to manage its business.***

If the Issuer is not able to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain the Issuer's quality and reputation, it will be difficult for the Issuer to manage its business and growth. The Issuer depends on the services of its executive officers and key employees for its continued operations and growth. In particular, the Issuer's senior management has significant experience in the microfinance, banking and financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer may be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

- (d) ***The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees***

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

- (e) ***The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position***

The Issuer maintains insurance coverage of the type and in the amounts that it believes are commensurate with its operations and other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage.

In addition there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are uninsurable. A successful assertion of such large claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations. Such risks are normally minimized through strong Risk Management practices of the Company.

- (f) ***Issuer requires certain statutory and regulatory approvals for conducting business and failure to obtain or retain them in a timely manner, or at all, may adversely affect operations.***

NBFCs in India are subject to strict regulation and supervision by the RBI. The Issuer requires certain approvals, licenses, registrations and permissions for operating its business, including registration with the RBI as a NBFC pursuant to Section 45-IA of the RBI Act, 1934. Further, such approvals, licenses, registrations and permissions must be maintained/renewed over time, applicable requirements may change, and the Issuer may not be aware of or comply with all requirements all of the time. Additionally, RBI has issued detailed directions on prudential norms inter alia prescribing guidelines on income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, disclosures in the balance sheet, requirement of capital adequacy, restrictions on investments in land and building and unquoted shares besides others. In particular, the Issuer is required to obtain a certificate of registration for carrying on business as a NBFC-ND that is subject to numerous conditions. In addition, its branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishments laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If the Issuer fails to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, its business may be adversely affected. If the Issuer fails to comply, or a regulator claims that it has not complied, with any of these conditions, the Issuer's certificate of registration may be suspended or cancelled, and it shall not be able to carry on such activities. If the Issuer fails to comply with the NBFC Directions and fails to maintain the status of NBFC it may attract penal provisions under the RBI Act, 1934 for non-compliance. The penal action can also result in RBI cancelling the Certificate of Registration issued to the NBFC.

(g) ***Economic Risk in India:***

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

6.4 TRADING OF THE NCDS MAY BE LIMITED BY TEMPORARY EXCHANGE CLOSURES, BROKER DEFAULTS, SETTLEMENT DELAYS, STRIKES BY BROKERAGE FIRM EMPLOYEES AND DISPUTES.

The Indian stock exchanges have experienced temporary exchange closures, broker defaults, settlement delays and strikes by brokerage firm employees. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

6.5 REFUSAL OF LISTING OF ANY SECURITY OF THE ISSUER DURING LAST THREE YEARS BY ANY OF THE STOCK EXCHANGES IN INDIA OR ABROAD

As on the date of this Key Information Document, no stock exchange in India or abroad has refused listing of any equity or debt security issued by the Issuer.

6.6 IN CASE OF OUTSTANDING DEBT INSTRUMENTS OR DEPOSITS OR BORROWINGS:

ANY DEFAULT IN COMPLIANCE WITH THE MATERIAL COVENANTS SUCH AS CREATION OF SECURITY

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

DEFAULT IN PAYMENT OF PENAL INTEREST WHEREVER APPLICABLE: As on the date of this Key Information Document, the Issuer has not committed any default in payment of interest penal in respect of any outstanding borrowings.

OTHERS: A failure to observe the covenants under the Issuer's financing arrangements or to obtain necessary consents required thereunder may lead to the termination of the Issuer's credit facilities, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under the Issuer's other financing agreements. If the obligations under any of the Issuer's financing documents are accelerated, the Issuer may have to dedicate a substantial portion of the Issuer's cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for the Issuer's working capital requirements and other general corporate purposes. Further, during any period in which the Issuer is in default, the Issuer may be unable to raise, or face difficulties raising, further financing. Any of these circumstances could adversely affect the Issuer's business, credit rating and financial condition, cash flows and results of operations. If the Issuer fails to meet its debt service obligations or covenants provided under the financing agreements, the relevant lenders could declare the Issuer to be in default under the terms of the Issuer's agreements or accelerate the maturity of the Issuer's obligations. The Issuer cannot assure the Investors that, in the event of any such acceleration, the Issuer will have sufficient resources to repay the borrowings.

SECTION 9: Specific Risk Factors

The following are the risks relating to the Company, the Debentures and the market in general envisaged by the management of the Company. Potential Investors should carefully consider all the risk factors stated in this Key Information Document for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures. Potential Investors should also read the detailed information set out elsewhere in this Key Information Document and reach their own views prior to making any investment decision.

9.1 GENERAL RISKS

RISKS IN RELATION TO THE NON-CONVERTIBLE SECURITIES:

(a) Repayment is subject to the credit risk of the Issuer.

Potential Investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential Investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

(b) The secondary market for non-convertible securities may be illiquid. Limited or sporadic trading of non-convertible securities of the Issuer on the stock exchanges.

The non-convertible securities may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the non-convertible securities, it is not likely to provide significant liquidity. Potential Investors may have to hold the Debentures until redemption to realize any value. Further, As of date, we are not aware of any limited or sporadic trading of the non-convertible securities of the Issuer on stock exchanges and therefore, this would not be applicable.

(c) Credit Risk & Rating Downgrade Risk; Regulatory Capital Risk

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential Investors may incur losses on revaluation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms.

(d) Changes in interest rates may affect the price of Debentures.

All securities where a fixed rate of interest is offered, such as this Issue, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the pricing of the Debentures.

(e) Tax Considerations and Legal Considerations:

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

Special tax considerations and legal considerations may apply to certain types of investors. Potential Investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

(f) Accounting Considerations:

Special accounting considerations may apply to certain types of taxpayers. Potential Investors are urged to consult with their own accounting advisors to determine implications of this investment.

9.2 RISKS IN RELATION TO THE SECURITY CREATED IN RELATION TO THE DEBT SECURITIES. FURTHER, ANY RISKS IN RELATION TO MAINTENANCE OF SECURITY COVER OR FULL RECOVERY OF THE SECURITY IN CASE OF ENFORCEMENT

(a) Security may be insufficient to redeem the Debentures

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the Security as per the terms of security documents, and other related documents executed in relation to the Debentures. The Debenture Holder(s)' recovery in relation to the Debentures will be subject to (i) the market value of such Security (ii) finding willing buyers for the Security at a price sufficient to repay the Debenture Holder(s)' amounts outstanding under the Debentures. There is a risk that the value realised from the enforcement of the Security may be insufficient to redeem the Debentures.

(b) Material changes in regulations to which the Issuer is subject could impair the Issuer's ability to meet payment or other obligations.

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

9.3 LEGALITY OF PURCHASE

Potential Investors in the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of their incorporation or the jurisdiction in which they operate or for compliance by that potential Investor with any law, regulation or regulatory policy applicable to it.

9.4 POLITICAL AND ECONOMIC RISK IN INDIA

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

9.5 RISKS RELATED TO THE BUSINESS OF THE ISSUER

- (a) ***Majority of the Issuer's loans are unsecured and the clients of these unsecured loans are of the high risk category and if the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the Issuer's loan loss reserves are insufficient to cover future loan losses, the financial condition and results of operations may be materially and adversely affected.***

A majority of the Issuer's loans are unsecured, and the clients of these unsecured loans are of the high risk category. There is uncertainty on the client's ability to fulfil its loan obligations it can be difficult to verify all client details and assess the risk. Such non-performing or low credit quality loans can negatively impact our results of operations.

The Issuer has various procedures and process controls in place to mitigate the risk. As of December 31, 2025, the gross NPA (defined as loans that are more than 90 Days Past Due) was INR 3.94 Crores on a gross portfolio of INR 808.95 Crores

The Issuer cannot assure that it will be able to effectively control and reduce the level of the NPAs of the loans made by the Company as a lender. The amount of its reported NPAs may increase in the future as a result of growth of the loans made by the Company as a lender, and also due to factors beyond its control, such as over-extended member credit that it is unaware of. If the Issuer is unable to manage NPAs or effect recoveries will result in operations being adversely affected.

The current loan loss reserves of the Issuer may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of the loans made by the Company as a lender. As a result, if the quality of its total loan portfolio deteriorates the Issuer may be required to increase its loan loss reserves, which will adversely affect its financial condition and results of operations.

The Issuer's members largely belong to low-income segment and, as a result, might be vulnerable if economic conditions worsen or growth rates decelerate in India, or if there are natural disasters such as floods and droughts in areas where the Issuer's members live. Moreover, there is no precise method for predicting loan and credit losses, and the Issuer cannot assure that its monitoring and risk management procedures will effectively predict such losses or that loan loss reserves will be sufficient to cover actual losses. If the Issuer are unable to control or reduce the level of its NPAs or poor credit quality loans, its financial condition and results of its operations could be materially and adversely affected.

- (b) ***Large scale attrition, especially at the senior management level, can make it difficult for the Issuer to manage its business.***

If the Issuer is not able to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain the Issuer's quality and reputation, it will be difficult for the Issuer to manage its business and growth. The Issuer depends on the services of its executive officers and key employees for its continued operations and growth. In particular, the Issuer's senior management has significant experience in the microfinance, banking and financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer may be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

- (c) ***The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees***

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

- (d) ***The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position***

The Issuer maintains insurance coverage of the type and in the amounts that it believes are commensurate with its operations and other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage.

In addition, there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are uninsurable. A successful assertion of such large claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations. Such risks are normally minimized through strong Risk Management practices of the Company.

- (e) ***Issuer requires certain statutory and regulatory approvals for conducting business and failure to obtain or retain them in a timely manner, or at all, may adversely affect operations.***

NBFCs in India are subject to strict regulation and supervision by the RBI. The Issuer requires certain approvals, licenses, registrations and permissions for operating its business, including registration with the RBI as a NBFC pursuant to Section 45-IA of the RBI Act, 1934. Further, such approvals, licenses, registrations and permissions must be maintained/renewed over time, applicable requirements may change, and the Issuer may not be aware of or comply with all requirements all of the time. Additionally, RBI has issued detailed directions on prudential norms inter alia prescribing guidelines on income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, disclosures in the balance sheet, requirement of capital adequacy, restrictions on investments in land and building and unquoted shares besides others. In particular, the Issuer is required to obtain a certificate of registration for carrying on business as a NBFC-ND that is subject to numerous conditions. In addition, its branches are required to be registered under the relevant shops and establishments laws of the states in which they are located. The shops and establishments laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If the Issuer fails to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, its business may be adversely affected. If the Issuer fails to comply, or a regulator claims that it has not complied, with any of these conditions, the Issuer's certificate of registration may be suspended or cancelled, and it shall not be able to carry on such activities. If the Issuer fails to comply with the NBFC Directions and fails to maintain the status of NBFC it may attract penal provisions under the RBI Act, 1934 for non-compliance. The penal action can also result in RBI cancelling the Certificate of Registration issued to the NBFC.

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

(f) ***Economic Risk in India:***

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

9.6 TRADING OF THE NCDS MAY BE LIMITED BY TEMPORARY EXCHANGE CLOSURES, BROKER DEFAULTS, SETTLEMENT DELAYS, STRIKES BY BROKERAGE FIRM EMPLOYEES AND DISPUTES.

The Indian stock exchanges have experienced temporary exchange closures, broker defaults, settlement delays and strikes by brokerage firm employees. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

9.7 REFUSAL OF LISTING OF ANY SECURITY OF THE ISSUER DURING LAST THREE YEARS BY ANY OF THE STOCK EXCHANGES IN INDIA OR ABROAD

As on the date of this Key Information Document, no stock exchange in India or abroad has refused listing of any equity or debt security issued by the Issuer.

9.8 IN CASE OF OUTSTANDING DEBT INSTRUMENTS OR DEPOSITS OR BORROWINGS:

ANY DEFAULT IN COMPLIANCE WITH THE MATERIAL COVENANTS SUCH AS CREATION OF SECURITY

(IF ANY) AS PER TERMS AGREED: As on the date of this Key Information Document, the Issuer has not committed any default in compliance with the material covenants as per terms agreed in respect of any outstanding borrowings.

DEFAULT IN PAYMENT OF INTEREST: As on the date of this Key Information Document, the Issuer has not committed any default in payment of interest in respect of any outstanding borrowings.

DEFAULT IN REDEMPTION OR REPAYMENT: As on the date of this Key Information Document, the Issuer has not committed any default in redemption or repayment in respect of any outstanding borrowings.

NON-CREATION OF DEBENTURE REDEMPTION RESERVE: Pursuant to Rule 18 (7) of the Companies (Share Capital and Debentures) Rules, 2014, an NBFC is not presently required to maintain debenture redemption reserve for debentures issued on a private placement basis.

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

DEFAULT IN PAYMENT OF PENAL INTEREST WHEREVER APPLICABLE: As on the date of this Key Information Document, the Issuer has not committed any default in payment of interest penal in respect of any of its outstanding borrowings.

OTHERS: A failure to observe the covenants under the Issuer's financing arrangements or to obtain necessary consents required thereunder may lead to the termination of the Issuer's credit facilities, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under the Issuer's other financing agreements. If the obligations under any of the Issuer's financing documents are accelerated, the Issuer may have to dedicate a substantial portion of the Issuer's cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for the Issuer's working capital requirements and other general corporate purposes. Further, during any period in which the Issuer is in default, the Issuer may be unable to raise, or face difficulties raising, further financing. Any of these circumstances could adversely affect the Issuer's business, credit rating and financial condition, cash flows and results of operations. If the Issuer fails to meet its debt service obligations or covenants provided under the financing agreements, the relevant lenders could declare the Issuer to be in default under the terms of the Issuer's agreements or accelerate the maturity of the Issuer's obligations. The Issuer cannot assure the Investors that, in the event of any such acceleration, the Issuer will have sufficient resources to repay the borrowings.

9.9 Risk Relating to Unavailability of Latest Quarterly Data

The financial disclosures contained herein are based on financial information as of September 30, 2025, or such other specific dates as mentioned, in compliance with applicable legal provisions. The financial statements for the period ended December 31, 2025, are currently in the process of finalization, and the statutory timeline for their disclosure has not yet elapsed. Rationale and key rating drivers

Ratings of long-term bank facilities and non-convertible debentures (NCDs) of Finnable Credit Private Limited (FCPL) continues to factor in the group's adequate capitalisation and gearing levels, supported by a demonstrated track record of equity raise (~₹525 crore since inception) with further infusion expected in current fiscal. Ratings assigned are based on a consolidated view of credit profiles of FCPL and its wholly owned subsidiary – Finnable Technologies Private Limited (FTPL), together referred to as the "Finnable" owing to the shared brand name and managerial synergies. Ratings also derive comfort from consistent scale-up in operations, with assets under management (AUM) rising to ₹3,110 crore as on September 30, 2025, from ₹370 crore in March 2022, aided by its technology-driven underwriting and from the experienced leadership team. Profitability improved, with the company turning profitable from Q3FY25, though earnings remain modest.

However, ratings remain constrained by FCPL's relatively moderate track record of operations, limited seasoning of on-book loan with meaningful on-book scale-up only from FY25 onwards, moderate profitability metrics and concentrated resource profile with high cost of funds. While on-book gearing levels is comfortable, the AUM-to-net worth ratio remains elevated, owing to significant share of the off-book portfolio. CARE Ratings Limited (CareEdge Ratings) notes inherent risks from FCPL's predominant focus on unsecured lending; a segment typically associated with higher credit costs. Robustness of the company's credit engine is evolving and will be crucial for sustaining asset quality as book scales up. These risks are partly offset by its emphasis on salaried borrowers. Regulatory risks from the evolving digital lending framework also remain key monitorable.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Sizable growth in scale of operations while maintaining profitability and asset quality metrics /credit cost at comfortable levels.
- Diversification in resource profile with raising funds at competitive rates.

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Decline in capitalisation levels with overall gearing (Borrowings/Tangible net worth [TNW] adjusted for first loss default guarantee [FLDG]) of over 3.5x at consolidated level or AUM/ TNW exceeding 6x at consolidated level on a sustained basis.
- Significant rise in credit cost, leading to deterioration in its profitability.
- Adverse regulatory event/developments, impacting business risk profile.

Analytical approach: Consolidated

CareEdge Ratings has taken a consolidated view of FCPL together referred to as the Finnable group. FCPL holds 100% of the Fintech (FTPL). Entities considered for consolidation are listed under Annexure 6.

Outlook: Stable

The stable outlook reflects the company will continue growing its portfolio while maintaining healthy asset quality and healthy capitalisation levels.

CareEdge
RATINGS

Detailed description of key rating drivers:

Key strengths

Increase in scale of operations driven by technology led underwriting model

The Finnacle group witnessed sharp increase in its scale of operations with AUM rising by 45%, from ₹1,899.09 crore as on March 31, 2024, to ₹2,755.51 crore as on March 31, 2025. As on September 30, 2025, AUM further increased to ₹3,110 crore, supported by expansion across 23 states. The company's growth is underpinned by its technology-based underwriting framework, executed through its subsidiary FTPL, which manages the end-to-end credit cycle—origination, risk assessment, and disbursement—on a fully digital platform. Minimal manual intervention enables faster turnaround time (TAT), efficient processing, and scalability. 100% of AUM is given to salaried customers with average ticket size of 2.5 lakh (Max 10 lakhs) with average tenure of 42 months and yield of ~25%. Unlike other fintechs, the Finnacle group also has physical verification model, where it employs ~1300 employees for sales, verification, collections. Physical verification (residence and office) gets triggered via tech, which gets completed with TAT of ~1 hour. All 100% collection is in house with no outsource up to 150 days past due (DPD).

While the technology-driven model has facilitated rapid growth and geographic diversification, CareEdge Ratings notes that maintaining asset quality during this high-growth phase remains a key monitorable.

Adequate capitalisation levels

At a consolidated level, FCPL's net worth stood at ₹510 crore as on September 30, 2025, supported by regular equity infusions from investors. Since inception, the company raised a cumulative ₹525 crore of equity, reflecting consistent investor backing. With a significant portion of its portfolio—80.8% of AUM—being off-book, reliance on borrowings has remained limited, resulting in a comfortable gearing of 0.76x as on September 30, 2025, which has further moderated following the recent equity raise. However, the AUM to net worth ratio stood elevated at 6.10x as on September 30, 2025. Adjusted gearing (Debt/TNW adjusted for FLDG) stood at 1.83x as on June 30, 2025.

Going forward, the management intends to maintain gearing levels below 3x (On-book) and AUM/NW less than 6x on a steady-state basis. However, given the company's growth trajectory, its ability to timely raise capital to support expansion while keeping leverage and AUM to net worth within guided levels will remain a key monitorable.

Experienced founders and management team

The Finnacle group is co-founded by Nitin Gupta and Amit Arora, both seasoned professionals with over two decades of experience each in financial services sector. Nitin Gupta, Co-founder, began his career in analytics with a leading MNC Bank before establishing an analytics company catering to global banks. Arora has 21 years of experience in retail banking across risk, business, and digital banking functions. Promoters are supported by an experienced leadership team. Sandeep Koul, Chief Technology Officer, brings over 22 years of expertise in technology and product management, having earlier co-founded HummingWave, a fintech-focused technology solutions company. Shrenik Sethi, Senior Vice President – Risk & Analytics, has over a decade of experience in credit risk and analytics, with prior stints at Citibank, PwC, and Bajaj Finserv.

Extensive experience of the founding team and senior management across credit, risk management, and digital solutions underpins Finnacle's business strategy, technology-driven model, and operational resilience. However, CareEdge Ratings notes that the company's ability to retain and further strengthen its senior leadership bench will remain important to sustain growth and manage risks effectively in the high-growth phase.

Healthy asset quality; yet to be tested across cycles

The Finnacle group's reported asset quality are currently healthy, with the gross non-performing assets (GNPA) ratio at 0.33% as on September 30, 2025. In absolute terms, GNPA stood at ₹1.98 crore against the on-book portfolio. However, it may be noted that significant portion of AUM is off-book and 90+ DPD stood stable at 1.07% as on September 30, 2025. Current bucket bounce rates have been ~12.5%, which has been on reducing trend.

While these metrics reflect improvement, the portfolio has not been tested across multiple cycles. Robustness of the company's credit engine is evolving and will be crucial for sustaining asset quality as book scales up. Elevated write-offs are inherent to unsecured PL segment; however, this risk is partly mitigated by the company's focus on salaried borrowers and its data-driven underwriting framework, which contributed to a relatively lower write-off of 2.39% of AUM in FY25.

Going forward, the group's ability to maintain asset quality at adequate levels leveraging its proprietary credit risk model and collection efforts will remain a key rating monitorable.

Key weaknesses

(This Key Information Document is neither a prospectus nor a statement in lieu of a prospectus)

Press Release

Moderate track record of operations

The group has an operational track record of ~7 years. The company has been on significant growth path with AUM growing at CAGR of ~85% post FY22. On a consolidated basis, the company's AUM stood at ₹3,110 crore as on September 30, 2025. However, the on-book portfolio remains low at 19.2% of AUM as on September 30, 2025, leading to limited seasoning on own-book. Due to limited vintage, its asset quality performance through different economic cycles is yet to be established, inducing a level of uncertainty. CareEdge Ratings observes that credit risk models based on data analytics and machine learning will continuously evolve with time and growth in portfolio.

Moderate-but-improving profitability

With company being in initial stages of operations, its profitability remained under loss with high operational expenses till FY24. At a consolidated level, the company has turned profitable from Q3FY25. Overall profit after taxation (PAT) for FY25 was at ₹6.8 crore. The company reported PAT of ₹26.4 crore in H1FY26. The company expects with benefits of scale of operations trend in operational expenses/ average total assets is expected to improve, which is expected to result in significant improvement in profitability levels going forward. The company's ability to source funds at competitive rates and keep operational expenses under control with company being in growth phase would be critical to attaining healthy profitability and would drive growth prospects.

Concentrated resourced profile with higher cost of funds

The company's debt raising track record remains limited with the company scaling up own book only from FY25. Prior to FY25 all borrowings were from non-banking financial companies or financial institutions (NBFCs/FIs). As on November 30, 2025, term loan from NBFCs/FIs continue to form major share of borrowings and constituted 40.4% of borrowings outstanding. Share of bank borrowings, including funding from small finance banks and private sector banks, formed 25.1% of borrowings. The company has also been able to borrow from market borrowings with NCDs forming major share of borrowings at 28.8% and pass-through certificate (PTC) of 5.6% of borrowings as on November 30, 2025. Going forward, the management also plans to continue tapping into market borrowings through raising funds through NCD and also further diversify its lender base with access to public and private sector banks based on the borrowing rate scenario. Evolving funding mix reflects the company's efforts to diversify its liability profile; however, its ability to further strengthen and optimise its resource base will remain critical to support future growth.

Regulatory risk related to the digital lending space

Ratings also take note of regulatory risk associated with entities operating in digital lending, as regulations are still evolving. Digital lending gaining momentum and size, and evolving industry regulations expose the industry to regulatory risk. Recent regulatory actions by the RBI, particularly in the unsecured lending segment have impacted growth and yield profiles of several players, highlighting the sector's vulnerability to policy shifts. However, recent reversal of increased risk weights on unsecured loans by the regulator is viewed as a positive development for entities operating in this space.

Liquidity: Adequate

The company's liquidity profile remains adequate, supported by healthy cash balances and the short-tenor nature of its loan book. As on June 30, 2025, the asset-liability management (ALM) statement reflected no negative cumulative mismatches across any time bucket, though a minor mismatch was observed in the 3-6 month bucket (excluding interest inflows). For the next 12 months, scheduled inflows from advances stood at ₹100 crore, compared to scheduled repayments of ₹145 crore. Liquidity is supported by free cash and cash equivalents of ₹33 crore on a consolidated basis as on June 30, 2025. The mismatch has been compensated by the recent equity infusion of ₹250 crore in September 2025, which strengthens overall liquidity buffer.

Going forward, the company's ability to maintain adequate liquidity while scaling up its on-book portfolio, and to diversify funding sources in line with growth requirements, will remain a key monitorable.

Independent Auditor's Limited Review Report on unaudited standalone financial results for the quarter and half year ended September 30, 2025 of Finnacle Credit Private Limited pursuant to Regulation 52 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

To the Board of Directors of Finnacle Credit Private Limited

We have reviewed the accompanying unaudited financial results of Finnacle Credit Private Limited (the "Company") for the quarter ended September 30, 2025 and the year to date results for the period April 1, 2025

to September 30, 2025, which are included in the accompanying Statement of Unaudited financial results, the Statement of Assets and Liabilities as on that date and the Statement of Cash Flows for the half year ended on that date (the "Statement") being submitted by the Company pursuant to the requirements of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations, 2015"), including relevant circulars issued by the SEBI from time to time. We have initialled the Statement for identification purposes only.

This Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 (the "Act"), the relevant provisions of the circulars, guidelines and directions issued by the Reserve Bank of India (RBI) from time to time ("RBI Guidelines") and other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of the Listing Regulations, 2015, including relevant circulars issued by the SEBI from time to time and that it has been prepared in accordance with the relevant prudential norms issued by the RBI in respect of Income recognition, asset classification, provisioning and other related matters, to the extent those are not inconsistent with the Indian Accounting Standards prescribed under Section 133 of the Act. Our responsibility is to issue a report on the Statement based on our review.

We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement has not been prepared in accordance with recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act, the RBI Guidelines and other accounting principles generally accepted in India and has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 52 of the Listing Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement, or that it has not been prepared in accordance with the relevant prudential norms issued by the RBI in respect of Income recognition, asset classification, provisioning and other related matters, to the extent those are not inconsistent with the Indian Accounting Standards prescribed under Section 133 of the Act.
