Qualified Opinion

We have audited the accompanying standalone financial results of Kerala Infrastructure Investment Fund Board (hereinafter referred to as "KIIFB"), for the year ended 31st March 2025, and notes to accounts attached herewith, being submitted by KIIFB pursuant to the requirement of Regulation 52 of the SEBI (Listing obligations and Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us these standalone annual financial results:

- a. are presented in accordance with the requirements of Regulation 52 of the Listing Regulations in this regard: and
- b. except for the matters described in the Basis for Qualified Opinion section of our report, the accompanying standalone financial results gives a true and fair view of the state of affairs of the KIIFB as at 31st March 2025, loss which is recouped to corpus fund and its cashflows for the year ended on the above said date in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI).

Basis for Qualified Opinion

1. An amount of Rs 3083.37 lakhs has been incurred for promotion and media activities through certain parties to whom such works were outsourced on nomination basis (single tender). This procedure is not in compliance with the stipulations in SOP for procurements of media services in force during the year requiring invitation of open tender for such works. In the absence proper tendering, the process involved for identification of service providers and the reasonableness of the rate could not be verified by us. This matter has already been pointed out as an audit observation in the Audit Report for the financial year 2022-23 and continues to be an observation for the FY 2023-24 by the previous auditor. The 24th Executive Committee (previously functioning as the Audit Committee) meeting held on 01.09.2023, had already taken a view to have a system in place for obtaining original invoices from the end service

providers at the first level of outsourcing to ensure effective monitoring of fund utilization and assessment of the reasonableness of expenditures. However, this directive is yet to be incorporated into the SOP even though the procedures are being adhered to in consonance with the directives of the Committee. For the above expenses invoices of first level service provider were made available to us. Further appropriate audit evidence to authenticate the receipt of the services provided as claimed in the invoices of first level service provider were not available on record, explained to be due to practical difficulties. We have placed reliance on the authentication and attestation of receipt of services by the Nodal Officer media management group with the approval of the payment by CEO. The above expenses incurred are within the budgetary limit approved by the General body.

In the view of the facts and circumstances dealt with the Para 1, we are not able to express our opinion on the expenses incurred during the period dealt with the above paragraph.

We conducted our audit in accordance with Standards on Auditing (SAs), Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial results section of our audit report. We are independent of KIIFB in accordance with the ethical requirements that are relevant to our audit of the financial results as per the ICAI's Code of Ethics and we have fulfilled our ethical requirements in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the audit of the standalone financial results.

Emphasis of Matter Paragraph

We draw attention to the following matters described in the Notes to Accounts of the Standalone Financial results

1. We draw attention to Note No: 5 of the standalone financial results which explains that, during the year, an amount of Rs.56,518 lakhs were received from GoK vide GO (Rt). No.496/2025/Fin towards balance of motor vehicle tax which was credited to Revolving Corpus Fund. The amount of Rs.56,518 lakhs which was held in the revolving corpus fund was transferred to initial corpus fund vide G.O.(Rt) No.674/2025/Fin dated 23-01-2025 and our opinion is not modified in respect of this matter,
2. We draw attention to Note No: 22 of the standalone financial results which explains that SOP and evaluation procedures with regards to the revenue generating projects. We understand that the management evaluates the projects before the loan is granted to various Revenue Generating Projects, however there are certain inherent delays which have occurred during the implementation stage of infrastructure. We were informed that these delays does not have adverse effect on the recovery of loans granted considering the operational model of KIIFB as detailed in Note No: 12 of the standalone financial results and these loans are expected to be recovered from SPVs

which are all government owned or controlled agencies and hence considered by the management as good and recoverable based on confirmations from the borrowers including for land acquisition projects aggregating to Rs. 3,65,136.01 Lakhs (total disbursement till 31.03.2025) Further Interest income has been recognised on revenue generating projects in cases where there have been certain delays on implementation of the projects financed by such loan, as detailed in Note No.15 to the standalone financial results and our opinion is not modified in respect of this matter,

3. We draw attention to Note No: 16 of the standalone financial results on, loan agreements are pending to be executed with SPV M/s KSFDC as at 31.03.2025 for loan outstanding amounts to Rs 1604.31 lakhs, although more than 40% stage of disbursement as per the terms of the tripartite agreement between KIIFB, the SPV and the concerned Govt department has been exceeded as at the year end. We are informed that steps are under process for execution of loan agreement which is pending the requisite clearance from the concerned departments of the Government of Kerala and our opinion is not modified in respect of this matter,

4. We draw attention to Note No: 8 of the standalone financial results on, the meeting of the General Body of KIIFB held on 27.02.2023 has directed to take steps to frame and develop IRAC norms relevant and applicable for long term infrastructure projects based on study conducted by an external agency. Such norms prepared have been approved by the General Body at its meeting held on 27.02.2023 and amended by way of circular resolution dated 13.04.2023 thereafter. Further based on Prudential norms on Income recognition, Asset classification and Provisioning (IRACP Norms) for long term infrastructure projects was adopted by KIIFB w.e.f 01-04-2023, vide circular resolution stated above and the same has been revised in the 46th General Body Meeting of KIIFB held on 02.09.2023.

As per the revised IRACP norms, KIIFB has classified projects into four categories based on the viability of projects into High, Medium, Low and no commercial viability projects. As per the provisions of IRACP Norms, project identified and categorised as Category I/ II earlier but later re-categorised as category III project, entire interest accrued in the past periods shall be reversed. Hence for such projects IRACP Norms are not applicable from the effective date of classification till such time repayment agreement are executed or project identified as loan in books of accounts whichever is earlier.

During the year, a new RGP was identified with project name 'Setting up of Carbon Neutral Coffee Park at Wayanad' for which an amount of Rs.980.62 lakhs was disbursed towards land acquisition based on the financial sanction already obtained. The remaining components are currently under appraisal,

and categorization will be carried out once financial sanction is accorded for the same. However, an interest amount of Rs.20.16 lakhs is being recognised from this revenue-generating project and our opinion is not modified in respect of this matter.

5. We draw attention to Note No: 6 of the standalone financial results which states, the balances under statutory contribution receivable from GoK of Rs.13,16,454.13 lakhs is considered good and recoverable and there is no uncertainty with regard to ultimate recovery, based on financial operational model of KIIFB as per the KIIF Act, 1999 as such amounts are expected to be recouped from the statutory contribution receivable in future years and are incorporated in the Asset Liability Management system and represents net amount spent as per the operational model implemented by KIIFB as envisaged in the KIIF Act,1999 and our opinion is not modified in respect of this matter.
6. We draw attention to Note No: 14 of the standalone financial results on, Advance and receivable also includes an amount of Rs 916.73 Lakhs incurred towards expenses to be recovered from Information & Public Relations Department for which claims are raised and pending for more than one year which is subject to confirmation as at 31.03.2025. However, the balance has been confirmed as at 31.03.2023. In the opinion of management such amount is considered good and recoverable and our opinion is not modified in respect of this matter.
7. We draw attention to Note No: 17 of the standalone financial results on, interest income recognised during the year ended March 31,2025 includes an amount of Rs.22,807.03 lakhs on which 40% stage of disbursement has not been reached. The rate of interest chargeable is fixed only on reaching of 40% stage is reached as per the terms of tripartite agreement for the project. However, interest on such borrowing has been recognised based on rates agreed upon at the time of sanction of the loan/ ACDB rate as decided by the management and our opinion is not modified in respect of this matter.
8. We draw attention to Note No: 18 of the standalone financial results which explains that, during the year, KIIFB transferred the Pravasi Chitty software platform to Kerala State Financial Enterprises Limited (KSFE) for a total consideration of Rs.7283 lakhs plus applicable GST, based on the decision of the High-Level Committee constituted as per Government Order (Rt) No. 196/2025/FIN dated 07.01.2025. As per the repayment agreement executed on 29.03.2025, KIIFB is entitled to recover the entire expenditure incurred up to 31st December 2024 in connection with the software from KSFE. An invoice for Rs.7283 lakhs plus GST was raised on the same date, and KSFE made an initial payment of Rs.2500 lakhs plus GST on 29.03.2025. The remaining balance will be recovered in two instalments within the next year, along with interest at the applicable Average Cost of Domestic Borrowing (ACDB) rate. The carrying value of the development charges capitalised in books, amounting to Rs.648.22 lakhs, has been reversed and the proceeds attributable to this amount in excess of the carrying value, amounting to

Rs.26.25 lakhs, have been recognised as profit on the sale of intangible assets. The balance amount of Rs.6608.52 lakhs has been treated as reimbursement of expenses previously charged to the Profit and Loss Account. Both the profit on transfer and the reimbursement have been recognised under Other Income. Further development costs incurred by KIIFB after 31.12.2024 will be reimbursed by KSFE based on actual invoices raised and our opinion is not modified in respect of this matter.

9. We draw attention to Note No: 13 of the standalone financial results where in it states that, During the year, KIIFB made an initial capital contribution of Rs. 509.85 lakhs (5,09,847.66 units at face value of Rs.10 per unit) to the Kerala Infrastructure Growth Fund I, a SEBI-registered Category II Alternative Investment Fund (AIF) established to finance infrastructure projects in Kerala. As the sponsor, KIIFB has committed 30% of the total revised fund size of Rs. 60,000 lakhs, amounting to Rs. 18,000 lakhs, as approved in the 46th General Body meeting. The contribution was made pursuant to the drawdown notice issued by the Investment Manager, Kerala Infrastructure Fund Management Limited (KIFML), an associate of KIIFB and our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Results.

These Standalone Financial Results have been compiled from the annual financial statements. Management is responsible for the preparation of these standalone financial results that give a true and fair view of the state of affairs, results of operations and cash flows of KIIFB in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial results management is responsible for liquidate KIIFB or to cease operations, or no realistic alternative but to do so assessing KIIFBs ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to do so.

Those charged with governance are responsible for overseeing KIIFBs financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is

a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

As part of an audit in accordance with Standards on Auditing (SAs), we exercise professional judgement and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KIIFBs internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on KIIFBs ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However future events or conditions may cause the entity to cease to continue as going concern.
- Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial results that individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial results may be influenced. We consider planning materiality and performance materiality to the plan the scope of our audit work and to evaluate the effect of any identified misstatements in the financial results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of audit and significant audit findings, including any significant deficiencies in internal control and auditor identifies during the audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The comparative financial information appearing in the financial statement, of the corresponding year ended 31st March 2024 was audited by the previous auditor whose report dated 25th May 2024, expressed a qualified conclusion on the standalone financial results on the authenticity of certain expenses.

Our conclusion is not modified in respect of the above matter.

- 8) KIIFB has introduced revised prudential norms on Income recognition, asset classification and provisioning relevant and applicable for long term infrastructure projects w.e.f 01-04-2023 as per the decision of general body through circular resolution dated on 13.04.2023. Further based on Prudential norms on Income recognition, asset classification and provisioning (IRACP Norms) for long term infrastructure projects was adopted by KIIFB w.e.f 01-04-2023, vide circular resolution stated above and the same has been revised in the 46th General Body Meeting of KIIFB held on 02.09.2023.

As per the revised IRACP norms, KIIFB has classified projects into four categories based on the viability of projects into High, Medium, Low and no commercial viability projects. As per the provisions of IRACP Norms, project identified and categorised as Category I/ II earlier but later re-categorised as category III project, entire interest accrued in the past periods shall be reversed. Hence for such projects IRACP Norms are not applicable from the effective date of classification till such time repayment agreement are executed or project identified as loan in books of accounts whichever is earlier. Provisioning of non performing assets is done as per norms as under :

a) The assets are classified as follows :

(i) Standard Assets - up to 12 months overdue

(ii) Substandard Assets – Beyond 12 months but less than 24 months overdue

(iii) Doubtful Assets – Beyond 24 months overdue

(iv) Loss Assets – fully to be written off subject to security value realisation

(v) In case of revenue generating projects (RGP) for which repayment agreements are pending to be entered, and disbursement is more than 40%:- such RGP will be considered as substandard asset after 24 months from the date 40% payment milestone has been reached or from the date of identification of the project as RGP in books of accounts, whichever is later.

b) Provisioning Norms

	<i>Type of Asset</i>	<i>Provision Required (%) - Expected Credit loss</i>
(i)	Standard Asset	0.40%
(ii)	Substandard Asset	
	Beyond 12 months and up to 18 months overdue for repayment agreements executed and beyond 24 months and up to 30 months overdue for not executed.	10%
	Beyond 18 months and up to 24 months overdue for repayment agreements executed and beyond 30 months and up to 36 months overdue for not executed.	25%
(iii)	Doubtful Assets	
	Up to One year	50%
	One to three years	75%
	More than three years	100%
(iv)	Loss Assets	100%

As per the IRACP norms provision for standard assets (for all revenue generating projects) at 0.4% on the outstanding loan balance and accrued interest amounting to Rs.3,513.55 Lakhs has been provided in the books of accounts as at 31.03.2025.

- 9 During the year, a new RGP was identified with project name 'Setting up of Carbon Neutral Coffee Park at Wayanad' for which an amount of Rs.980.62 lakhs was disbursed towards land acquisition based on the financial sanction already obtained. The remaining components are currently under appraisal, and categorization will be carried out once financial sanction is accorded for the same. However, an interest amount of Rs.20.16 lakhs is being recognised from this revenue-generating project and our opinion is not modified in respect of this matter.
- 10 The categorisation of loans as per IRACP Norms and closing balances are as follows.

Category	Type of Category	No. of Projects	Loan (Rs. in lakhs)	Interest Accrued(Rs. in Lakhs)	Total
I	Projects which have high commercial viability	8	7,85,880.07	68,016.06	8,53,896.13
II	Projects which have medium commercial viability	7	22,473.03	1,018.73	23,491.76
III	Projects which have low commercial viability	2	40,458.12	-	40,458.12
IV	Projects which have no commercial viability	0		-	-
	Total		8,48,811.22	69,034.79	9,17,846.01

- 11 At the meeting of CEO, Principal Secretary of Industries department and KSIDC officials held on 24.06.2023 it was decided to place before the general body of KIIFB, a proposal for conversion of the project Bio 360 life science park phase I which was hitherto treated as revenue generating, into non -revenue generating project. The amount disbursed to the project till the close of the year is Rs. 30,117.04 Lakhs and accrued interest Rs.9,267.80 Lakhs upto 31.03.2021.No interest has been recognised on the project subsequent to 31.03.2021 pending implementation of resolution plan. The total cost of Rs.39,384.84 Lakhs (Incl accrued interest) has been fully provided for as doubtful and charged to P&L A/c of the preceding year as project cost. Further in the 46th general body of KIIFB revised IRACP norms was placed and the above loan was classified as category III project.(Projects with low commercial viability). Accordingly no interest has been recognised on the project.

In addition to the above, 46th General body held on 02.09.2023 has classified two projects namely ITD001-02-SPV KSITIL (Amount o/s including accrued interest Rs.10850.82 lakhs) and LSG 007-01-SPV KSEB (Amount o/s including accrued interest Rs.9475.92 lakhs) into lower commercially viable project (Category III). However repayment agreement was executed for the project ITD 001-02 as on 13/04/2024 and reclassified the same to Category II project. As per the terms of agreement interest rate was reduced to fixed rate of 5% from the existing ACDB rate. Additional provision amounting to Rs.9475.92 lakhs has been made in books of accounts towards outstanding loan amount and accrued interest till 31.03.2023 for LSG 007-01 project being classified to category III during the year. No interest income has been recognised during the current year for said project.

- 12 On facts of the case, in respect of many of the revenue generating projects financed, there have been certain inherent delays during implementation which according to the management does not have adverse effect on the recovery of loans granted considering the operational model of KIIFB. Moreover, since the borrowers are government owned or controlled agencies, the loans are considered by the management as good and recoverable based on confirmations from the borrowers including for land acquisition projects aggregating to Rs. 3,65,136.01 Lakhs.(total disbursement till 31.03.2025).

Out of the financial assistance to revenue generating projects, an amount of Rs.49,344.68 Lakhs is secured by way of mortgage by deposit of title deed.

Provision for standard assets at 0.40% has been made towards the outstanding amount of principal and interest as prescribed under IRACP Norms. i.e. (Category I and II projects)

- 13 During the year, KIIFB made an initial capital contribution of Rs. 509.85 lakhs (5,09,847.66 units at face value of Rs.10 per unit) to the Kerala Infrastructure Growth Fund I, a SEBI-registered Category II Alternative Investment Fund (AIF) established to finance infrastructure projects in Kerala. As the sponsor, KIIFB has committed 30% of the total revised fund size of Rs. 60,000 lakhs, amounting to Rs. 18,000 lakhs, as approved in the 46th General Body meeting. The contribution was made pursuant to the drawdown notice issued by the Investment Manager, Kerala Infrastructure Fund Management Limited (KIFML), an associate of KIIFB on behalf of the fund.
- 14 Advance and receivable also includes an amount of Rs 916.73 Lakhs incurred towards expenses to be recovered from Information & Public Relations Department for which claims are raised and pending for more than one year which is subject to confirmation as at 31.03.2025. However, the balance has been confirmed as at 31.03.2023. In the opinion of management such amount is considered good and recoverable.
- 15 On facts of the case, many of the projects financed with long gestation period are yet to be completed as at the year end. As per the terms of the loan sanctioned the repayment of principal and interest commences on completion of moratorium period. There have been certain significant time overrun on some of the projects due to various factors, but interest is payable on completion of moratorium period regardless of project completion as per terms of agreement.
- 16 Loan agreements are pending to be executed with one SPV M/s KSFDC as at 31.03.2025 for loan outstanding amounts to Rs 1604.31 lakhs, although more than 40% stage of disbursement as per the terms of the tripartite agreement between KIIFB, the SPV and the concerned Govt department has been exceeded as at the year end. Steps are under process for execution of loan agreement which is pending the requisite clearance from the concerned departments of the Govt of Kerala .
- 17 Interest income recognised during the year ended March 31,2025 includes an amount of Rs.22807.03 lakhs on which 40% stage of disbursement has not been reached. The rate of interest chargeable is fixed only on reaching of 40% stage is reached as per the terms of tripartite agreement for the project. As per the repayment agreement executed on 29.03.2025, KIIFB is entitled to recover the entire expenditure incurred up to 31st December 2024 in connection with the software from KSFE. An invoice for Rs.7283 lakhs plus GST was raised on the same date, and KSFE made an initial payment of Rs.2500 lakhs plus GST on 29.03.2025. The remaining balance will be recovered in two instalments within the next year, along with interest at the applicable Average Cost of Domestic Borrowing (ACDB) rate. The carrying value of the development charges capitalised in books, amounting to Rs.648.22 lakhs, has been reversed and the proceeds attributable to this amount in excess of the carrying value, amounting to Rs.26.25 lakhs, have been recognised as profit on the sale of intangible assets. The balance amount of Rs.6608.52 lakhs has been treated as reimbursement of expenses previously charged to the Profit and Loss Account. Both the profit on transfer and the reimbursement have been recognised under Other Income. Further development costs incurred by KIIFB after 31.12.2024 will be reimbursed by KSFE based on actual invoices raised.
- 19 Promotional and advertisement expenses includes expense incurred towards media, promotional and advertisement of Rs 3,725.64 lakhs incurred through various parties to whom such works were outsourced. tendering, the process involved for identification of service providers and the reasonableness of the rate could not be verified by us. This matter has already been pointed out as an audit observation in the Audit Report for the financial year 2022–23 and continues to be an observation for the FY 2023-24 by the previous auditor. The 24th Executive Committee (previously functioning as the Audit Committee) meeting held on 01.09.2023, had already taken a view to have a system in place for obtaining original invoices from the end service providers at the first level of outsourcing to ensure effective monitoring of fund utilization and assessment of the reasonableness of expenditures. However, this directive is yet to be incorporated into the SOP even though the procedures are being adhered to in consonance with the directives of the Committee. For the above expenses invoices of first level service provider were made available to us. Further appropriate audit evidence to authenticate the receipt of the services provided as claimed in the invoices of first level service provider were not available on record, explained to be due to practical difficulties. We have placed reliance on the authentication and attestation of receipt of services by the Nodal Officer media management group with the approval of the payment by CEO. The above expenses incurred are within the budgetary limit approved by the General body.

In the view of the facts and circumstances dealt with the Para 1, we are not able to express our opinion on the expenses incurred during the period dealt with the above paragraph.

We conducted our audit in accordance with Standards on Auditing (SAs), Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial Results section of our audit report. We are independent of KIIFB in accordance with the ethical requirements that are relevant to our audit of the consolidated financial results as per the ICAI's Code of Ethics and we have fulfilled our ethical requirements in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the audit of consolidated financial results.

As per the repayment agreement executed on 29.03.2025, KIIFB is entitled to recover the entire expenditure incurred up to 31st December 2024 in connection with the software from KSFE. An

invoice for Rs.7283 lakhs plus GST was raised on the same date, and KSFE made an initial payment of Rs.2500 lakhs plus GST on 29.03.2025. The remaining balance will be recovered in two instalments within the next year, along with interest at the applicable Average Cost of Domestic Borrowing (ACDB) rate. As the sponsor, KIIFB has committed 30% of the total revised fund size of Rs. 60,000 lakhs, amounting to Rs. 18,000 lakhs, as approved in the 46th General Body meeting. The contribution was made pursuant to the drawdown notice issued by the Investment Manager, Kerala Infrastructure Fund Management Limited (KIFML), an associate of KIIFB and our opinion is not modified in respect of this matter.

We draw attention to the following matters reported in emphasis of matter paragraph of audit report of subsidiary company, KIIFCON Private Limited

1. We draw attention to Note 27 of the Consolidated Financial Statements which explains that the Company had raised invoice no. 8 dated 25th March 2024 for Rs 174.53 Lakhs (inclusive of GST) towards consultancy services rendered to Kerala State Road Transport Corporation (KSRTC) for the Route Rationalisation Project covering the period from April 2023 to February 2024. However, based on subsequent communication received from KSRTC citing technical constraints in processing the payment the said voice was reversed through a credit note dated 26th October 2024. Accordingly, no income has been recognised in respect of this project during the current financial year. This has resulted in a disproportionate Increase on the expenditure for the year, as the Company had incurred significant costs towards project execution without corresponding revenue recognition.
2. We draw attention to Note 28 of the Consolidated Financial Statements which explains that the Company has written back an excess provision of Rs 2.34 Lakhs created towards Income Tax for the financial year ended 31st March

2024, upon finalisation and assessment of the tax liability. The said amount has been credited to the Statement of Profit and Loss under the head "Excess Provision Written Back."

3. We draw attention to Note 29 of the Consolidated Financial Statements which explains that Pursuant to the Memorandum of Understanding (MoU) dated 22nd February 2024 between M/s KIIFCON, M/s Cochin Smart Mission Limited (CSML), and Kochi Municipal Corporation for the implementation of the GIS Mapping Project covering 66 wards, the Company has been designated as the custodian and fund manager for the project. In accordance with the MoU, a dedicated bank account has been opened by the Company for managing the project funds. An amount of Rs 1390.73 Lakhs has been sanctioned by CSML, out of which Rs 139.07 Lakhs has been received as the first instalment during the year. The said amount has been accounted as a liability under "Unspent Project Fund" in the financial statements, and utilization of the same will be shown as a reduction from this liability in subsequent periods. The Company is entitled to a revenue of 2.74% of the awarded contract amount, which shall be billed separately upon execution and completion of relevant project milestones. As no revenue has been recognized against the above funds during the current financial year, the Input Tax Credit (ITC) availed on related project expenses has been reversed in the books. Further, tax has been deducted at source (TDS) @ 2% by CSML on the amount disbursed, and the corresponding TDS amount has been recorded as a TDS Receivable/Asset in the financial statements, as the amount credited to the Company was net of tax.

4. We draw attention to Note 30 of the Consolidated Financial Statements which explains that during the year, the Company has transferred an amount of Rs 12.29 Lakhs from Reserves and Surplus to Project Asset, representing the expenditure incurred towards the Kovalam Project during the financial year 2023-24. Additionally, this head also includes amounts spent during the current financial year towards Wayanad Project amounting to Rs 87.65 Lakhs and Kovalam Project amounting to Rs 0.12 Lakhs. The above reclassification and additions have been made to appropriately reflect the expenditures as part of the Project Assets, thereby ensuring that the financial statements present a true and fair view of the nature and classification of the Company's assets

Our opinion is not modified in respect of these matters

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the consolidated financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KIIFBs internal control.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on KIIFB's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial results, including the disclosures, and whether the financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial results that individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial results may be influenced. We consider planning materiality and performance materiality to the plan the scope of our audit work and to evaluate the effect of any identified misstatements in the financial results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of audit and significant audit findings, including any significant deficiencies in internal control and auditor identifies during the audit.

- 14 On facts of the case, in respect of many of the revenue generating projects financed, there have been certain inherent delays during implementation which according to the management does not have adverse effect on the recovery of loans granted considering the operational model of KIIFB. Moreover, since the borrowers are government owned or controlled agencies, the loans are considered by the management as good and recoverable based on confirmations from the borrowers including for land acquisition projects aggregating to Rs. 3,65,136.01 Lakhs.(total disbursement till 31.03.2025).
- 15 During the year, KIIFB made an initial capital contribution of Rs. 509.85 lakhs (5,09,847.66 units at face value of Rs. 10 per unit) to the Kerala Infrastructure Growth Fund I, a SEBI-registered Category II Alternative Investment Fund (AIF) established to finance infrastructure projects in Kerala. As per the terms of the loan sanctioned the repayment of principal and interest commences on completion of moratorium period. There have been certain significant time overrun on some of the projects due to various factors, but interest is payable on completion of moratorium period regardless of project completion as per terms of agreement.
- 19 Loan agreements are pending to be executed with one SPV M/s KSFDC as at 31.03.2025 for loan outstanding amounts to Rs 1604.31 lakhs, although more than 40% stage of disbursement as per the terms of the tripartite agreement between KIIFB, the SPV and the concerned Govt department has been exceeded as at the year end. The carrying value of the development charges capitalised in books, amounting to Rs.648.22 lakhs, has been reversed and the proceeds attributable to this amount in excess of the carrying value, amounting to Rs.26.25 lakhs, have been recognised as profit on the sale of intangible assets. The balance amount of Rs.6608.52 lakhs has been treated as reimbursement of expenses previously charged to the Profit and Loss Account. Both the profit on transfer and the reimbursement have been recognised under Other Income. Further development costs incurred by KIIFB after 31.12.2024 will be reimbursed by KSFE based on actual invoices raised.

However, based on subsequent communication received from KSRTC citing technical constraints in processing the payment, the said invoice was reversed through a credit note dated 26th October 2024. Accordingly, no income has been recognised in respect of this project during the current financial year. This has resulted in a disproportionate increase in the expenditure for the year, as the Company had incurred significant costs towards project execution without corresponding revenue recognition.

The said amount has been accounted as a liability under "Unspent Project Fund" in the financial statements, and utilization of the same will be shown as a reduction from this liability in subsequent periods.

The Company is entitled to a revenue of 2.74% of the awarded contract amount, which shall be billed separately upon execution and completion of relevant project milestones. As no revenue has been recognized against the above funds during the current financial year, the Input Tax Credit (ITC) availed on related project expenses has been reversed in the books.

Further, tax has been deducted at source (TDS) @ 2% by CSML on the amount disbursed, and the corresponding TDS amount has been recorded as a TDS Receivable/Asset in the financial statements, as the amount credited to the company was net of tax.

The remaining components are currently under appraisal, and categorization will be carried out once sanction is accorded for the same. However, an interest amount of Rs 49.87 lakhs is being recognised from this revenue-generating project during the half year.

- 10.2 On the facts of the case, in respect of many of the revenue generating projects financed, there have been certain inherent delays during implementation which according to the management does not have adverse effect on the recovery of loans granted considering the operational model of KIIFB. However, interest on such borrowing has been recognised based on rates agreed upon at the time of sanction of the loan/ ACDB rate as decided by the management.

10.5 Interest income has been recognised on loans given to SPV's revenue generating projects in cases where there has been certain delays on implementation of the projects financed by such loans. According to the management, payment of interest is not contingent on such projects earning revenue. The management have further asserted that certain inherent delays which have occurred during implementation stage of infrastructure projects does not have any adverse effect on the recoverability of loans granted considering the operational model of KIIFB. Hence, these loans are considered good and expected to be recovered from SPVs which are all government owned or controlled agencies.

According to the management there is no uncertainty with regard to ultimate recovery, based on financial operational model of KIIFB as per the KIIF Act, 1999 (amended by act of 2016) since such amounts are expected to be recouped from the statutory contribution receivable from the State Government in future years. Current portion of statutory contribution receivable has been ascertained on the basis of Budgetary allotment of statutory contribution as per annual Finance Act 2025 of GoK and balance amount has been shown under Non-Current Asset.

Dear Sir/Madam,

Re: Rating Letter for NCD of Kerala Infrastructure Investment Fund Board

India Ratings and Research (Ind-Ra) has taken the following rating actions on Kerala Infrastructure Investment Fund Board's (KIIFB) non-convertible debentures (NCDs):

Instrument Type	Size of Issue (million)	Rating assigned along with Outlook/ Watch	Rating Action
Non-convertible debentures \$,#	INR15,000.30	IND AA(CE)/Stable	Converted to final
Proposed non-convertible debentures \$,^	INR34,999.70	Provisional IND AA(CE)/Stable	Affirmed
Non-convertible debentures \$	INR56,499.10	IND AA(CE)/Stable	Affirmed

\$ Credit ratings with (CE) suffix indicate that the instruments are supported by an external explicit credit enhancement (CE).

The assignment of the final rating follows the receipt of key executed transaction documents conforming to the information already received by Ind-Ra and the creation of a debt service reserve and fixed deposit (FD) on 7 August 2025. The final rating is, therefore, the same as the provisional rating assigned on 23 June 2025. The key documents received are information memorandum, debenture trustee deed, deed of guarantee, deed of hypothecation, and accounts agreement.

^ The rating is provisional and contingent upon the execution of certain documents and/occurrence of certain steps.

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. The assignment of the final rating follows the receipt of key executed transaction documents conforming to the information already received by Ind-Ra and the creation of a debt service reserve and fixed deposit (FD) on 7 August 2025. The final rating is, therefore, the same as the provisional rating assigned on 23 June 2025. Analytical Approach

Ind-Ra continues to take a standalone view of KIIFB to arrive at the ratings. Ind-Ra classifies KIIFB as a dependent entity of the government of Kerala (GoKe) under its rating of Public Sector Entities criteria. The NCD rating draws comfort from the credit profile of the GoKe, which has extended an unconditional and irrevocable guarantee for the debt issuance. The bond rating is notched up based on the nature of pledged revenue, the strength of the structured payment mechanism, the availability of liquidity buffers and a likely adequate debt service coverage ratio (DSCR).

Detailed Rationale of the Rating Action

The rating is based on the continued strong legal and financial linkages between KIIFB and the GoKe, and Ind-Ra has notched them up based on the structured payment mechanism, which is working as it was hypothesised. Collections from the unrestricted pledged receivables, in the form of motor vehicle tax (MVT) and cess on petroleum receipts, allocated to KIIFB by the GoKe, are in line with Ind-Ra's expectations. Resultantly, neither the DSRA has been used, nor the GoKe guarantee and DSRA guarantee have been invoked.

The notching is based on the legal and financial strengths of the transaction structure, which will be monitored and controlled by the debenture trustee (DT). The payment mechanism is backed by a bond servicing account (BSA), a pre-funded (initial DSRA and FD are to be created one day before the pay-in date) one-quarter DSRA and an FD sufficient to meet one-quarter of interest and principal obligations throughout the bond tenor. The DSRA and FDs are lien-marked in favour of the trustee and can be used only for debt servicing.

Ind-Ra has rated the newly issued FY26 bonds and proposed NCDs at the same level as the NCDs issued in FY24 and FY25 worth INR56,499.10 million (existing bonds), on the basis that a similar structured payment mechanism will be followed when compared to bonds issued in FY25. However, unlike in the FY24 bond structure, wherein a recourse to the corpus fund was made in instances such as DSRA impairment/cross default, the current structure (FY25 and FY26) takes a recourse to the GoKe to replenish the shortfall in DSRA as well as infusing funds to meet any shortfall in redeeming NCDs to the bondholders in case of a cross default. Under the current structure, the GoKe has taken the responsibility of replenishing the upfront FD and infusing funds to KIIFB for redeeming bondholders in case of a cross default, along with the responsibilities as per the FY24 bond structure. For all bonds, Ind-Ra takes comfort from the unconditional, irrevocable and continuing pre-default guarantee agreement executed between the GoKe and KIIFB, which will remain in force and effect until the NCDs are fully redeemed as per the deed of guarantee. Based on the pre-default guarantee and enforceability of the guarantee, Ind-Ra has assigned a CE suffix to the NCD rating, and the base rating of the transaction has been linked to the credit profile of GoKe.

List of Key Rating Drivers

Strengths

- Adequacy of pledged revenue
- DSRA and corpus fund
- Structured payment mechanism
- Transaction structural features
- Shortfall guarantee from GoKe
- GoKe's ownership and control of KIIFB

Weaknesses

- Potential revenue risk during adverse economic situation
- Kerala's moderate economic performance
- State's high deficit and debt ratios

Detailed Description of Key Rating Drivers

Adequacy of Pledged Revenue: Ind-Ra expects the pledged revenue to comfortably meet the debt service obligations of the bonds throughout the tenor. transaction structure, the MVT and petroleum cess received in KIIFB's collection account daily during April to December every year, will be deposited in KIIFB's BSA. The most servicing and repayment of the bonds will be made from the build-up of such allocated cash flows, through regular transfers, in the bond servicing escrow account. Ind-Ra expects the revenue

pledged to adequately provide a minimum cover of 1.2x of its debt service payments under the rating case scenario without using liquidity buffers in the medium term. The NCDs are issued at a fixed rate of interest that mitigates the interest rate risk.

The transfer to BSA will be done in a manner such that the amount required for servicing NCDs gets fully built-up at least seven days prior to the quarterly servicing date. The MVT and cess allocation by the GoKe increased at a CAGR of 14.20% during FY21-FY25. The GoKe is required to ensure that the funds allocated to KIIFB grow at least 10% yoy. For any shortfall in cash flow during a financial year, the structure draws support from the statutory obligation of the government to cover the shortfall under the KIIF Act 2016.

DSRA and Corpus Fund: A one-quarter DSRA and an FD sufficient to meet one-quarter interest and principal obligations throughout the bond tenor has been created and will be created one day before the pay-in date for all the existing, and new and proposed bonds, respectively. Also, the terms of the FY25 bonds and proposed bonds are similar as the FY24 bonds, basis the draft term sheet and draft NCD documents except for the availability of the corpus fund. The corpus fund had been enhanced to INR38,921.90 million at end-March 2025 from INR33,270.19 million basis the difference between actuals of MVT and cess collections as per state Finance Accounts for FY24 and the budget provisioning already made for FY 25.

Structured Payment Mechanism: Ind-Ra expects the structured payment mechanism overseen by the trustees to protect the interest of bondholders. Under the structured payment mechanism, from the first day of each quarterly servicing cycle, an amount equivalent to 2% of the aggregate quarterly servicing requirement of the outstanding bonds will be transferred to KIIFB's BSA, by way of an irrevocable standing instruction to the collection bank, until the required debt servicing amount is fully built up (pay-out date (T)) T-7 days before the due date of the payment. This transfer will continue each working day from April to December. For the period of 1 January to 31 March, KIIFB shall transfer an upfront amount on 1 January each year to KIIFB's BSA. The upfront amount will be equivalent to the amount required towards the aggregate daily transfer amounts for the said period.

DT would monitor the adequacy of the availability of funds in BSA, and in case of any inadequacy, would fund the same through liquidation of FD to the extent of such shortfall (T-7 days). In case of a shortfall in the BSA by T-5-day, DT would advise KIIFB to immediately bridge the shortfall, under intimation to the state government. If the shortfall persists on T-3-day, DT will transfer the requisite funds from DSRA to bridge the gap.

In case the funds available in DSRA are lower than the servicing requirement for the immediate next servicing date (T + 91), DT would serve a notice to KIIFB on T+ 1 day to fully replenish the DSRA impairment through the transfer of requisite amount from the corpus fund within T + 6 days for the existing bonds.

The structured payment mechanism is provided in detail for the FY25 and FY26 bonds and proposed NCDs in the Any Other Information section.

Transaction Structural Features: The NCDs are secured by an exclusive charge on KIIFB's BSA, DSRA and FD in favour of DT. The GoKe has agreed to unconditionally and irrevocably guarantee the bonds raised by KIIFB; the guarantee is continuing in nature and through the tenor of the bonds for the principal and interest as per deed of guarantee for the existing bonds and for the new bonds. The corpus fund is unavailable for the FY26 issued and proposed bonds and in the FY25 bond structure, the GoKe takes the responsibility of replenishing the upfront FD/DSRA and infusing funds to KIIFB for redeeming the bondholders in case of a cross default in addition to the responsibilities as per the earlier transaction structure.

Separately, for the FY24 bonds, KIIFB has extended an unconditional and irrevocable undertaking that in the event the DSRA is utilised for meeting any debt servicing requirement for NCDs, it would arrange to release the requisite amount from the corpus fund to replenish DSRA. As per the undertaking, KIIFB would not impair this corpus fund in any way during the tenor of the NCDs and an amount of INR33,270.19 million would always be maintained as the corpus to fully reinstate the DSRA for FY24 bonds. There would be no charge or lien on the corpus fund in favour of DT. However, DT would monitor the corpus fund. The corpus fund was further enhanced in FY25 by INR5,651.80 million by GoKe basis the difference between actuals of MVT and cess collections as per state Finance Accounts for FY 24 and the budget provisioning already made for FY25.

For the FY24 bonds, in case of a cross default/acceleration under agreements (subject to relevant cure periods) for any financial indebtedness of KIIFB or its subsidiaries, KIIFB would repay bondholders the entire amount of the outstanding bonds from the corpus fund within seven days from the date of occurrence of such cross-default/acceleration, failing which it shall constitute an event of default for the existing bonds. For the new and proposed bonds, the bondholders are provided a put option in case of cross default.

Shortfall Guarantee from GoKe: For the FY25 and FY26 bonds and proposed bonds, the GoKe has extended a guarantee to fund DSRA and FD shortfall within the specified timeline. Unlike in the FY24 bond structure where a recourse to the corpus fund was made in instances such as a DSRA impairment/ in case of a cross default, the current structure takes a recourse to the GoKe to replenish the shortfall in DSRA, FD as well as infusing funds to meet any shortfall in redeeming NCDs to the bond holders in case of cross default.

The deed of guarantee would specifically provide obligation on the part of the GoKe to fund the shortfall in DSRA and FD when called upon by DT, as per the stipulated timeline, in case of new and proposed bonds. The structured payment mechanism is provided in detail for the new and proposed NCDs in the Any Other Information section below.

The GoKe has extended a guarantee to fund only DSRA shortfall within the specified timeline for the FY24 bonds. In the event of the DSRA not getting fully reinstated by T+6 days, DT would notify the state government about its intention for an invocation of the guarantee if the shortfall were not fully bridged by T+27 days. The deed of guarantee specifically provides obligation on the part of the GoKe to fund the shortfall in DSRA when called upon by DT, as per the above stipulated timeline. If the guaranteed obligations are not met by the GoKe within 30 days of the guaranteed invocation, it would be construed as an event of default, as per the terms of the transaction. Ind-Ra, in its analysis, has stressed the GoKe's credit profile by considering a sizeable portion of the guarantee to devolve.

As per Ind-Ra's analysis, the guarantor, even in the stress scenario, is likely to meet all the guaranteed debt obligations.

GoKe's Ownership and Control of KIIFB: Ind-Ra has classified KIIFB as a dependent public sector entity under its Rating of Public Sector Entities criteria. The GoKe exercises significant control over KIIFB's policy objective and governs the composition and functioning of the board. Moreover, KIIFB is fully owned by the GoKe. The government has enacted the necessary legislation to enable the board to mobilise funds for the infrastructure development of Kerala. The GoKe also exercises significant control over the working of KIIFB through its board, which comprises senior state government officials along with independent members. As per Section 7 of Kerala Infrastructure Investment Fund (Amendment) Act, 2016 on budgetary allocation for repayment, the GoKe from time to time will provide in its annual budget the expenses incurred for the payment of annuity and other obligations of KIIFB in the form of MVT and petroleum cess. The GoKe may further make grants, loans and advances available to the fund as it may deem fit.

Potential Revenue Risk during Adverse Economic Situation: Ind-Ra does not rule out the possibility of a reduction of MVT due to an adverse economic situation, which may pan out during the bond tenor, and a reduction in petroleum cess due to a shift to electrical vehicles. However, the liquidity buffers by way of FD and DSRA and an unconditional, irrevocable and continuing guarantee by the GoKe towards DSRA replenishment for both the bonds and FD replenishment for new and proposed bonds under the transaction structure mitigate the risk from inadequate cash flows for debt payments. Ind-Ra believes the GoKe would ensure the budgetary allocation to KIIFB by way of MVT and cess is adequate to meet its debt servicing obligations and fund infrastructure development activity.

Kerala's Moderate Economic Performance: The share of agriculture and industry in the state economy is lower while that of services is higher than their respective shares in the national economy. The share of industry in Kerala was lower at 27.4% than 30.9% at the national level in FY24. The share of services was higher at 64.2% than the sector's share in the national economy of 54.6% in FY24. With a CAGR of 4.4%, Kerala's economy grew slower than the nation's gross value-added (GVA) growth rate of 5.8% during FY12-FY24. The state's contribution to the national economy was 3.8% in FY24 (FY12: 4.1%).

State's High Deficit and Debt Ratios: Kerala's revenue deficit as per the revised estimate (RE) of FY25 has been kept at 2.3%, higher than FY25 budget estimate (BE) of 2.1% of GSDP due to shortfalls in revenue receipts and lower-than-projected nominal GSDP growth. On the expenditure side, both revenue and capital expenditure were reduced by INR43.8 billion and INR11.8 billion, respectively, in FY25RE versus budgeted estimates. The expenditure cuts would contain the fiscal deficit at 3.5% of GSDP in FY25RE (FY25BE: 3.4%).

For FY26, the state government has budgeted the revenue deficit at 1.9% and the fiscal deficit at 3.2% of GSDP.

The debt of the state has been budgeted at 33.8% of GSDP for FY26. This is marginally lower than the debt/GSDP of 34.2% in FY25RE and FY24 (actual). However, notwithstanding the moderation, the budgeted debt ratio for FY26 would be higher than the indicative debt estimate of 32.0% of GSDP for the state government by the 15th Finance Commission (15FC).

Liquidity

Adequate: Liquidity is supported by daily transfers of MVT and petroleum cess, which are escrowed for debt servicing. It had received INR31,300 million during FY25 as the share of MVT and petroleum cess from the GoKe. It had also received INR5,651.80 million as lump-sum allocation during 4QFY25 from the GoKe as additional contribution to the initial corpus fund. KIIFB had surplus liquidity of INR38,921.90 million by way of the corpus fund at FYE25 (audited). Also, KIIFB has received confirmation as per GoKe budget with regards to allocation of MVT and cess in the form of INR36,250 million for FY26. Any shortfall in the said funds would be supported by the state government in the form of additional support as required.

The total liquidity available with KIIFB, including cash and bank balances, DSRA deposits for existing debt, corpus fund and investments, was INR79,400.05 million at FYE25. The NCDs benefit from the liquidity buffers by way of a one-quarter pre-funded DSRA and an FD to the extent of interest obligations of one succeeding quarter and a principal redemption amount of one quarter upfront that would be maintained throughout the tenure of NCDs.

The company is required to maintain a DSRA equivalent of one-quarter interest and principal obligations throughout the tenor of NCDs. In accordance with the terms of the structure, a one-quarter DSRA and a one-quarter interest and principal obligations in the form of FDs worth INR8,482.48 million have been created cumulatively (for all issued bonds).

The corpus fund can be utilised for replenishing DSRA, put option on a critical rating downgrade notice, cross default mandatory redemption and early redemption only in case of the existing bonds (in the event KIIFB is required to replenish any shortfall in the DSRA for the third consecutive quarter). Ind-Ra expects the cash debt service coverage ratio for FY26 to be comfortably above 1.3x of the debt service payments, based on the rating case scenario (FY25: 2.52x); including liquidity buffers such as cash and bank balances and investments). The total debt servicing obligation for FY26 and FY27 as per agency's projections are INR52,389.96 million and INR62,659.96 million, respectively, which can be comfortably covered by the existing cash reserves and the budgetary allocation to be received of MVT and petroleum cess from the GoKe.

Rating Sensitivities

Positive: Any improvement in the credit profile of the GoKe will be positive for the ratings.

Negative: The following developments could, individually or collectively, lead to a negative rating action:

- deterioration in the credit profile of the GoKe;
- the DSCR falling below 1.2x for two consecutive years during the bond tenor;
- continuous dipping into liquidity buffers for two consecutive quarters;
- the invocation of the GoKe's guarantee; and
- a failure or breach to comply with Securities and Exchange Board of India's listing requirements with regard to timely disclosure on a sustained basis.

Disclosures for CE Rating

1) UNSUPPORTED RATING

Ind-Ra has affirmed the unsupported rating at 'IND A-/Stable'.

The unsupported rating is arrived at without factoring in the explicit CE. It helps in understanding the extent of the CE factored into the instrument rating.

ANALYTICAL APPROACH

Ind-Ra continues to factor in the strong legal and operational linkages between KIIFB and the GoKe.

DETAILED RATIONALE OF THE RATING ACTION

Ind-Ra has classified KIIFB as a dependent public sector entity under its Rating of Public Sector Entities criteria. The unsupported rating considers the legal status of the entity, the significant control exercised by the GoKe over its policy objective, and the composition and functioning of the board.

LIST OF KEY RATING DRIVERS

Strengths

- GoKe's ownership and control of KIIFB

Weaknesses

- Potential revenue risk during adverse economic situation
- Kerala's moderate economic performance
- State's high debt burden and debt ratios

DETAILED DESCRIPTION OF KEY RATING DRIVERS

The detailed description of key rating drivers and liquidity profile for the unsupported rating are the same as that of the NCDs.

RATING SENSITIVITIES

Positive: Any improvement in the credit profile of the GoKe will be positive for the ratings.

Negative: A negative rating action could result, individually or collectively, from the following:

- a weakening of the linkages with the GoKe
- deterioration in the GoKe's credit profile

2) INSTRUMENT COVENANTS

The issuer shall ensure that, in respect of any relevant period, the liability service coverage ratio for such relevant period shall not be less than 1.1x. The liability service coverage ratio means the ratio of FC cash flow to liability service;

FC cash flow means, with respect to any relevant period, the aggregate of: (a) a share of MVT and cess levied on petroleum products received by the issuer pursuant to KIIF Act; (b) any other amount appropriated by the GoKe for the issuer's sole usage; (c) any other payments to the issuer other than proceeds from any financial indebtedness; and (d) the total amount of cash and cash equivalent investments controlled by the issuer at the beginning of the relevant period, excluding any DSRA and sinking fund or any other debt servicing account of similar intent; and

Liability service means, with respect to the relevant period, the aggregate of: (a) all scheduled payments (including balloon payments) on account of principal and interest and other charges on all financial indebtedness, as applicable and (b) any payment made or required to be made to any debt service account under the terms of any agreement providing for any financial indebtedness.

3) ADEQUACY OF CE STRUCTURE

1. Shortfall Guarantee from GoKe: For the FY25 and FY26 bonds and proposed bonds, the GoKe has extended a guarantee to fund DSRA and FD shortfall within the specified timeline. Unlike in the FY24 bond structure where a recourse to the corpus fund was made in instances such as a DSRA impairment/ in case of cross default, the current structure takes a recourse to the GoKe to replenish the shortfall in DSRA, FD as well as infusing funds to meet any shortfall in redeeming NCDs to the bond holders in case of cross default.

The deed of guarantee would specifically provide obligation on the part of the GoKe to fund the shortfall in DSRA and FD when called upon by DT, as per the stipulated timeline, in case of new and proposed bonds. The structured payment mechanism is provided in detail for the new and proposed NCDs in the Any Other Information section below.

The GoKe has extended a guarantee to fund only DSRA shortfall within the specified timeline for the FY24 bonds. In the event of the DSRA not getting fully reinstated by T+6 days, DT would notify the state government about its intention for an invocation of the guarantee if the shortfall were not fully bridged by T+27 days. The deed of guarantee specifically provides obligation on the part of the GoKe to fund the shortfall in DSRA when called upon by DT, as per the above stipulated timeline. If the guaranteed obligations are not met by the GoKe within 30 days of the guaranteed invocation, it would be construed as an event of default, as per the terms of the transaction. Ind-Ra, in its analysis, has stressed the GoKe's credit profile by considering a sizeable portion of the guarantee to devolve.

As per Ind-Ra's analysis, the guarantor, even in the stress scenario, is likely to meet all the guaranteed debt obligations.

2. State Government Guarantee: The guarantee is unconditional and irrevocable and is a continuing obligation. The guarantee will remain in force and effect until the NCDs are fully redeemed.

Disclosures for Provisional Rating

1) RATING THAT WOULD HAVE BEEN ASSIGNED IN ABSENCE OF THE PENDING STEPS/ DOCUMENTATION

Ind-Ra would have assigned 'IND A-/Stable in absence of the pending steps/documentation.

2) PENDING STEPS/ DOCUMENTATION CONSIDERED WHILE AFFIRMING PROVISIONAL RATING AND RISKS ASSOCIATED WITH THE PROVISIONAL NATURE OF THE CREDIT RATING:

S.no.	Pending Critical Documentation while Assigning Provisional Rating*\$	Risks Associated with Provisional Nature of Credit Rating in the Absence of Completed Documentation or Change in Documentation
1	Final term sheet	In the absence of executed documents or the final executed documents deviate from the draft documents submitted at the time of provisional rating, the transaction structure would be weak.
2	Deed of hypothecation	
3	Debenture trust deed	
4	Deed of guarantee	
5	Accounts agreement	
6	Creation of DSRA and fixed deposit	Non-creation of DSRA and fixed deposit would increase the vulnerability to cashflow mismatches and the risk of timely debt servicing.

*Additionally, any other relevant documents executed for the transaction should be provided to the agency.

3) VALIDITY PERIOD

The final rating, upon the receipt of executed documents consistent with the draft documents, shall be assigned within 90 days from the date of issuance of the instrument. The provisional rating may be extended by another 90 days, subject to Ind-Ra's policy, if the execution of the documents is pending.

**KERALA INFRASTRUCTURE INVESTMENT FUND BOARD
Rating Assigned and Reaffirmed**

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
BOND	1500.03	ACUITE AA CE Stable Assigned Provisional To Final	-

Rating Rationale

Acuite has reaffirmed the long-term rating of 'ACUITE AA (CE)' (read as ACUITE double A (Credit Enhancement)) to the Rs.5649.91 Cr. unsecured non- convertible bonds of Kerala Infrastructure Investment Fund Board (KIIFB). The outlook is 'Stable'.

Acuite has converted the provisional rating on the Rs. 1500.03 Cr. unsecured non- convertible bonds of Kerala Infrastructure Investment Fund Board (KIIFB) to final and assigned the long term rating of 'ACUITE AA (CE)' (read as ACUITE double A (Credit Enhancement)). The outlook is 'Stable'.

Acuite has reaffirmed the long term rating of 'Provisional ACUITE AA (CE)' (read as Provisional ACUITE double A (Credit Enhancement)) to the Rs. 3500.06 Cr. unsecured non- convertible bonds of Kerala Infrastructure Investment Fund Board (KIIFB). The outlook is 'Stable'.

The conversion from provisional rating to the final rating reflects the fulfilment of the appointment of a SEBI registered debenture trustee, execution of debenture trust deed and receipt of the final term sheet.

The conversion of provisional rating of the remaining proposed bond of Rs. 3500.06 Cr. to final rating is subject to:

- Appointment of a SEBI registered Debenture Trustee
- Execution of Debenture Trust Deed
- Receipt of the final term sheet and confirmation from trustee regarding the compliance with all the terms and condition of term sheet

Rationale for the rating

The rating factors in the strategic importance of KIIFB to the Government of Kerala (GoKe), as it acts as the nodal agency for infrastructure development in the state of Kerala. The rating also considers the complete ownership of the GoKe and the strength of the board of KIIFB with the Chief Minister as the chairperson and includes the finance minister, chief secretary, and other civil servants and experts. The rating also takes into consideration the constitution of the Fund Trustee Advisory Commission (FTAC) which monitors the financial stability and fund utilisation of KIIFB. GoKe has to make the necessary budgetary allocations to ensure KIIFB's revenue stream. Transfers from GoKe to KIIFB are as provided for in Section 7 of KIIF Act (as amended in 2016). As per Section 7, GOKe shall make budgetary allocations equivalent to share of MVT and entire quantum of fuel cess collected in the state in the previous year. As per the KIIF Act 2016, all the borrowings made by KIIFB are guaranteed by GoKe.

The final rating derives its strength from the Debt Service Reserve Account (DSRA), structured payment mechanism, escrow and the availability of corpus fund (wherever applicable). Further, the credit enhancement is supported by GoKe's explicit guarantee to replenish both upfront FD and DSRA in case of shortfall/ impairment. Additionally, as per Deed of Guarantee, GoKe is to infuse required funds to Issuer to redeem bondholders in case a cross-default/ critical rating downgrade event. If such redemption is not affected within the specified timelines, GoKe guarantee can be invoked by Debenture Trustee to redeem the bonds.

The rating is partially offset by the financial constraints and widening revenue and fiscal deficits of the Government of Kerala. Also, since KIIFB lends at the average cost of borrowings and provides funds for the social development of the state in the form of grants, the profitability will remain impacted.

About the company

Kerala Infrastructure Investment Fund Board (KIIFB) was established as the principal funding arm of Government of K Kerala Infrastructure Investment Fund Act 1999 (Act 4 of 2000). Through various functions provided by the act, KIIFB aims to channel funds for critical and large public infrastructure projects in Kerala. Comprehensive modifications to

the Act were enacted through the Kerala Infrastructure Investment (Amendment) Act, 2016. With the expanded scope and structure provided under the amended Act, KIIFB is now mobilising and channelling funds for facilitating planned, hassle-free, and sustainable development of both physical and social infrastructure, including major land acquisition needs that are integral to development and ensure all round wellbeing and prosperity, using financial instruments approved by the Securities & Exchange Board of India (SEBI) and the Reserve Bank of India (RBI).

KIIFB was established with the main objective of providing investment for critical and large infrastructure projects in Kerala. It acts as the primary agency of the state government to facilitate the development of both the physical and social infrastructure in Kerala and to assist the state government and its agencies in the development of infrastructure in Kerala. KIIFB acts as the main agency of the state government for scrutinising, approving, and funding major infrastructure projects. These infrastructure projects may be revenue generating or non-revenue generating.

Unsupported Rating

Acuite A+/Stable

(Post notch up in view of the support from Government of Kerala)

Analytical Approach

Acuite has considered the standalone financial and operational figures of KIIFB and further notched it up for the support from Government of Kerala and the credit enhancement and structured payment mechanisms in place for the issue.

Key Rating Drivers

Strength

Support from the Government of Kerala

KIIFB is the nodal agency for infrastructure development for the Government of Kerala. KIIFB was established with the main objective of providing investment for critical and large infrastructure projects in Kerala. It acts as the primary agency of the state government to facilitate the development of both the physical and social infrastructure in Kerala and to assist the state government and its agencies in the development of infrastructure in Kerala. It is fully owned by GoKe. The GoKe further extends its support in the form of board representation with the Chief Minister as the chairperson, the Finance Minister, the chief secretary, key bureaucrats, and independent members. Further, all the borrowings made by KIIFB are guaranteed by GoKe as per the KIIF Act. GoKe has to make the necessary budgetary allocations to ensure KIIFB's revenue stream. Transfers from GOKe to KIIFB are as provided for in Section 7 of KIIF Act (as amended in 2016). As per Section 7, GOKe shall make budgetary allocations equivalent to the share of MVT and the entire quantum of fuel cess collected in the state in the previous year. These revenues come to KIIFB on a daily basis and fully by the month of December in every financial year, so that there are no liquidity crunches at the end of the financial year affecting the cashflows. The GoKe may also make any additional grants or loans to KIIFB so that KIIFB defrays its debt liabilities as per the KIIF Act.

Close monitoring by FTAC

The Fund Trustee and Advisory Commission (FTAC) monitors the financial stability and fund utilisation by KIIFB closely. It acts as the trustee to ensure that all investments of the fund serve the purpose and intent of the KIIF Act. The commission consists of eminent members like Shri. Vinod Rai, Chairman, Shri. R.A. Sankara Narayanan and Smt. Uma Shankar. FTAC issues a "Fidelity Certificate" every six months certifying that the application of funds and the investment of surplus funds are in conformity with the Act and KIIFB has adequate resources to meet debt obligations arising in the next 6 months.

Strength of the structure of the issue

The structure will be closely monitored by the DT and DSRA and FD mechanisms are also in place. The tenure of the bond is ten years, and the principal redemption will start in year four. The issuer would create a DSRA for an amount equivalent to the interest obligation of one succeeding quarter and the principal redemption amount of one quarter. The issuer would need to maintain the required DSRA amount on a rolling basis, and the initial DSRA amount so calculated would need to be deposited at least one day prior to the date of pay in. On the first day of every quarterly payment cycle, Issuer shall also maintain a fixed deposit in a scheduled public commercial bank, at least to the extent of the interest obligation on the immediately succeeding quarterly payout date & principal redemption amount of one quarter, and create, maintain, charge/lien on the same in favour of the Debenture Trustee at all times. The current structure provides for two quarters of interest and repayment obligations through the DSRA and FD mechanisms upfront.

The escrow mechanism is in place for the bond servicing account, where daily credit equivalent to 2% of the upcoming servicing requirement will happen, from the daily credit of petroleum and MVT Cess share from GoKe. For the last quarter of the financial year, the entire servicing requirement will be transferred upfront at the beginning of the quarter.

For the previous bond issue, the DT will check the availability of funds on the T-7th day and recover any shortfalls through the liquidation of the FD. If the shortfall still remains on the T-5th day, DT will ask the issuer to bridge the shortfall immediately. If the shortfall persists on the T-3rd day, the DT will transfer the funds from the DSRA to bridge the gap. The DSRA utilisation should be notified to the GoKe by the next day. If the impairment of DSRA is not fully replenished on the payout day, on T+1th day, DT will ask the issuer to replenish the DSRA from the corpus fund by T+ 6th day. There is the corpus fund amounting to ~Rs. 3892 Cr. which will only be used for the replenishment of DSRA or redemption of the issue during any windfall event. The corpus fund has to be maintained till the end of the issue period. If the DSRA is not cured on that day, the DT will inform the GoKe its intention to invoke the guarantee if the DSRA is not replenished in next 21 days. If the DSRA is not replenished by T+27th day, DT will invoke the state guarantee. The GoKe has the obligation to replenish the DSRA within the next 30 days. If the DSRA is not replenished on the T+58th day, it will be considered as an event of default.

The converted bonds amounting to ~Rs. 3000 Cr. and the proposed and converted bond amounting to of Rs. 5000 Cr., does not have a support of Corpus fund as a part of its credit enhancement structure. However, the credit enhancement is supported by GoKe's explicit guarantee to replenish both upfront FD and DSRA in case of shortfall/ impairment. If the Guarantee obligations are not met by the State Government within 30 days of Guarantee invocation i.e. T+ 58 days, it would be construed as an Event of Default. Further as per Deed of Guarantee, GoKe is to infuse required funds to Issuer to redeem bondholders in case default/ critical rating downgrade event. If such redemption is not effected within the specified timelines, GoKe guarantee invoked by DT to redeem the bonds. Accordingly for the cross-default/ critical rating downgrade if the Guarantee obligations are

not met by the State Government within 30 days of Guarantee invocation i.e. T + 85 days, it would be construed as an Event of Default.

Weakness

State of the financial health of Government of Kerala

Since the operations of KIIFB are supported by the GoKe and the revenue stream of KIIFB also derives from the GoKe, the high revenue and fiscal deficits of Government of Kerala can disrupt the operations of KIIFB. During 2024 (CAG Provisional), GoKe revenue deficit stood at 1.55 % of the GSDP with the fiscal deficit at 2.92 % of the GSDP. The debt of the GoKe stood at 33.76% of the GSDP. Going forward, the ability of the GoKe to improve its financial stability and the central government's intervention in state borrowing limits will be key monitorables.

Assessment of Adequacy of Credit Enhancement under various scenarios including stress scenarios (applicable for ratings factoring specified support considerations with or without the "CE" suffix)

Acuite believes that the DSRA structure, FD and escrow mechanism in the bond servicing account along with the corpus fund and guarantee by the GoKe will help in maintaining ample liquidity and mitigating any risk in repayment of the issue.

Stress case Scenario

Acuite believes that given the GoK ownership, adequacy of the structure and unconditional, irrevocable and legally enforceability, KIIFB will be able to service its debt on time, even in a stress scenario. Further, the credit enhancement is supported by GoKe's explicit guarantee to replenish both upfront FD and DSRA in case of shortfall/ impairment.

ESG Factors Relevant for Rating

KIIFB created its ESG policy in 2021. The main objective of this policy is to address any of the ESG risks and impacts in the projects and make them ESG sustainable for KIIFB and its stakeholders and development partners. KIIFB is committed to adopting global standards and principles of responsible investing, and integrating ESG criteria into its investment approach and decision-making processes. Further, KIIFB also encourages Special Purpose Vehicles (SPVs) or Project Implementation Agencies (PIAs) to manage risks responsibly by working beyond regulatory requirements and moving towards enhanced social value creation. As part of this, KIIFB has adopted a nine step mechanism that includes due diligence, monitoring, and grievance redressal mechanisms to ensure proper ESG standards are maintained in each of its projects and the policy is updated as per the latest trends.

KIIFB has a strong internal governance system in place. KIIFB is headed by the Chief Executive Officer, who also acts as the fund manager of KIIFB. The Board is the highest decision-making body of KIIFB and comprises the Chief Minister, the Finance Minister, the Chief Executive Officer, key bureaucrats, and independent members. The board consists of 14 members, out of whom 6 are independent members.

Rating Sensitivity

- Changes in GoKe support
- Changes in financial health of GoKe
- Non adherence to the payment structure
- Deterioration in DSRA, FD or corpus fund or invocation of guarantee

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
