Key Risks Related to our Business and our Industry

Key External Risks

Our results of operations have been, and may continue to be, adversely affected by Indian and international financial market and economic conditions.

Our business has been, and in the future could continue to be, materially and adversely affected by Indian and international market and economic conditions. Such conditions in India include fluctuations in interest rates; changes in consumer spending; the level of consumer confidence; housing prices; corporate or other scandals that reduce confidence in the financial markets; and the rate of unemployment, among others. International market and economic conditions include the liquidity of global financial markets; the level and volatility of debt and equity prices and interest rates; investor sentiment; inflation; the availability and cost of capital and credit; sovereign defaults or the possibility thereof; and the degree to which international economies are expanding or experiencing recessionary pressures. The independent and/or collective fluctuation of these conditions can directly and indirectly affect demand for our lending finance and other financial products, or increase the cost to provide such products. In addition, adverse economic conditions, such as declines in housing values, could lead to an increase in mortgage and other home loan delinquencies and higher write-offs, which can adversely affect our earnings.

The Company has to comply with stricter regulations and guidelines issued by regulatory authorities in India, including the NHB

The Company is regulated principally by and has reporting obligations to the NHB and RBI. The Company is also subject to corporate, taxation and other laws in effect in India. The regulatory and legal framework governing the Company differs in certain material respects from that in effect in other countries and may continue to change as India's economy and commercial and financial markets evolve. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency in India's housing finance sector. Moreover, NHB guidelines prescribe the provisioning required in respect of our outstanding loan portfolio. The level of our present provisions may not be adequate to cover further increases in the amount of our non-performing loans or the underlying collateral. If such provisions are not sufficient to provide adequate cover for loan losses that may occur, or if the Company is required to increase its provisions, this could have a material adverse effect on financial condition, liquidity and results of operations of the Company.

The Company faces intense competition in the businesses, which may limit its growth and prospects.

The Company faces significant competition in the businesses that it is involved in. In particular, the Company competes with other housing finance companies; and public and private sector commercial banks operating in the markets in which the Company is present. In recent years, large international banks have also entered these markets. The Company competes on the basis of a number of factors, including execution, depth of product and service offerings, innovation, reputation and price.

The company cannot assure that it will be able to compete effectively with new and existing lenders in the increasing competitive housing finance industry. Increasing competition may have an adverse effect on our net interest margin and other operating income and if we are unable to compete successfully, our market share will decline as origination of new loan decline.

Key Internal Risks

Our financial performance is particularly vulnerable to interest rate risk.

Our results of operations are substantially dependent upon the level of our net interest income. Interest rates are highly sensitive to many factors beyond our control, including the RBI's monetary policies and domestic and international economic and political conditions.

Changes in interest rates could affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest-bearing liabilities.

There can be no assurance that we will be able to manage our interest rate risk adequately in the future. If we are unable to do so, this would have an adverse effect on our net interest income. Further, an increase in interest rates may adversely affect the demand for housing finance in India, which in turn may affect our interest income on housing loans and have a material adverse effect on our business, financial condition and results of operations.

Our business requires substantial capital, and any disruption in funding sources and access to capital markets would have a material adverse effect on our liquidity and financial condition.

Since we are a “non-deposit accepting” Housing Finance Company (HFC) and do not have access to deposits, our liquidity and ongoing profitability are, in large part, dependent upon our timely access to, and the costs associated with raising capital. Our funding requirements historically have been met from a combination of borrowings; sales of our loans to other lenders such as banks; and issuance of commercial paper, non-convertible debentures and equity. Thus, our business depends and will continue to depend on our ability to access diversified funding sources.

We also face significant maturities of unsecured debt each year. In order to retire these instruments, we may need to refinance this debt, which would be dependent on the condition of the credit markets and the cost of credit. We cannot assure that we would be able to generate sufficient cash to retire the debt.

Our ability to access capital also depends on our credit ratings.

The cost and availability of capital is also dependent on our short-term and long-term credit ratings. The NCDs have been rated “CARE AAA” by CARE Ratings reflect a rating agency’s opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. While the recent credit rating actions have been positive, any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and lending markets and, as a result, would negatively affect our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any new or replacement financing arrangements.

A decline in its capital adequacy ratio could restrict the Company’s future business growth

If our Company continues to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to our principal business of housing finance.

Our business could be adversely affected if we are not able to control or reduce the level of non-performing assets in our portfolio and/or if we experience further deterioration of our non-performing asset portfolio and an inability to improve our provisioning coverage as a percentage of gross non-performing assets.

A number of factors which are not within our control could affect our ability to control and reduce non-performing loans. These factors include developments in the Indian economy and the real estate scenario, movements in global markets, global competition, changes in interest rates and exchange rates and changes in regulations. If we continue to expand at our current rate, we may in the future reach a point where we cannot continue to grow at the same rate without causing our non-performing loans to increase and the overall quality of our loan portfolio to deteriorate. If our non-performing loans increase, we may be unable to execute our business plan as expected and that could adversely affect the price of the NCDs, the Warrants and the Shares.

There can be no assurance that our present provisions will be adequate to cover any further increase in the amount of non-performing loans or any deterioration in our non-performing loan portfolio.

A significant percentage of our client base is comprised of individual borrowers who generally are more likely to be affected by declining economic conditions than larger corporate borrowers.

Individual borrowers generally are less financially resilient than larger corporate borrowers, and, as a result, they can be more adversely affected by declining economic conditions. Moreover, unlike several developed economies, a nationwide credit bureau has only recently become operational in India, so there is less financial information available about individuals, and, in turn, it is difficult to carry out precise credit risk analyses on them. Although we believe that our risk management controls are sufficient, we cannot be certain that they will

continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to maintain sufficient credit assessment policies, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

As part of our business strategy we have assigned /securitised a portion of our loans primarily to banks and other institutions.

We have in the past, assigned/ securitised a portion of the receivables from our loan portfolio to banks and other institutions. Any change in NHB/RBI or other government regulations in relation to assignments/securitisations by HFCs could have an adverse impact on our assignment/securitisation program. In the event the relevant bank or institution does not realise the receivables due under such loans, the relevant bank or institution would have recourse to the corporate guarantee and/or cash collateral and the underlying security, in the event such loans are secured. Some of the assignment/securitisation arrangements provide that the relevant bank or institution would have recourse to put the outstanding receivables under the assigned loan to us. In the event the corporate guarantee and/or cash collateral, underlying the security and general provisioning are inadequate, and the loans are put back to us, this could have a material adverse effect on our operating results and financial condition.

Rating Rationale

The rating factors the consistency in strong financial and business performance of Indiabulls Housing Finance Ltd (IBHFL) and the growth prospects of mortgage finance business in India coupled with the position of IBHFL to benefit from the same. The rating also takes into consideration the comfortable capitalisation level, diversified resources profile, good asset quality, experienced management, comfortable liquidity profile and risk associated with big ticket size corporate loans. Asset quality, profitability and capitalisation are the key rating sensitivities.

Background

IBHFL is registered with National Housing Bank (NHB) and is engaged in the business of mortgage finance (home loans and loan against property) and corporate mortgage loans (lease rental discounting and residential construction finance). In March 2013, the parent company Indiabulls Financial Services Ltd (IBFSL) reverse merged with its 100% subsidiary, IBHFL, with a share swap ratio of 1:1. IBHFL on a consolidated basis has a presence in mortgage finance (Home loan and Loan against property) (76% of consolidated assets under management [AUM] of Rs.52,235 crore as on March 31, 2015), corporate mortgage loans (22% of AUM) and commercial vehicle financing (2% of AUM). IBHFL has a presence at 220 locations spread across 20 states and union territories of India as on March 31, 2015. Mr. Sameer Gehlaut is the Founder Chairman and Executive Director and is supported by Mr. Gagan Banga, Vice Chairman and MD.

During FY15 (refers to the period April 1 to March 31), IBHFL reported a profit of Rs.1,901 crore on total income of Rs.7270 crore. The total AUM was Rs.52,235 crore with Rs.46,040 crore being on-balance sheet portfolio. The total capital adequacy stood at 18.36% with Tier-I CAR at 15.25%.

¹ Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

The PAT for Q1FY16 was Rs.511 crore on an income of Rs.2,025 crore. The AUM stood at Rs.54,022 crore as on June 30, 2015. Asset quality remained stable with Gross and Net NPA at 0.95% and 0.41% respectively as on June 30, 2015.

Note:- Mr. Y.H. Malegam, who is one of CARE's Rating Committee Members, carried out a consultancy assignment for one of the Indiabulls group company and hence to avoid any potential conflict of interest Mr. Malegam did not participate in the rating process and the rating committee meeting.

Press Release

Brickwork Ratings Reaffirms the ratings for various debt issues of Indiabulls Housing Finance Limited, Mumbai

Brickwork Ratings (BWR) has reviewed the **Ratings**¹ assigned to various debt issues of Indiabulls Housing Finance Limited, Mumbai in the light of the Company's proposed acquisition of stake in UK based full service OakNorth Bank. A public announcement to this effect was made by the Company on November 12, 2015. BWR has received information and clarifications from the Company's management on this proposed transaction.

The Company has informed that as a part of its roadmap towards a deposit-taking franchise, Indiabulls Housing Finance Limited (IBHFL) is investing USD 100 million for a 39.76% stake in OakNorth Bank, a full service Universal Bank based in the United Kingdom with the approval of the Reserve Bank of India (RBI) and National Housing Bank (NHB) in India and Prudential Regulation Authority (PRA) of the Bank of England and Financial Conduct Authority (FCA) of the UK. In addition, Mr. Sameer Gehlaut, the key promoter, is also investing USD 25 million for another 10% stake. Post this acquisition, IBHFL will become the largest single shareholder in the OakNorthBank with controlling stake. IBHFL has also informed that RBI has capped the Company's investment at USD 100 million in OakNorth Bank.

IBHFL's investment in OakNorth Bank of USD 100 million is worth less than 1% of the Company's balance sheet size of ₹ 66,799 Crores and about 6.3% of its Tangible Net worth of ₹ 10,367 Crores, on a consolidated basis, as of September 30, 2015. This transaction, assuming no immediate return, may result in decrease in profit by about 1% in the overall profitability of the Company over a period of one year, going by the pre-investment ROA indicators provided by the Company. Further, in the worst case scenario of the investment being netted off against TNW, the CRAR can be expected to fall from the current level by ~100 basis points which is not very significant, given its current CRAR of 21.59% as of September 30, 2015.

BWR is of the view that this proposed investment, which could be a business diversification for the Company, and consume some top management band-width, will not have material impact on the financial health of the Company, and its credit risk profile. Hence, no rating action is contemplated on the existing ratings of Indiabulls Housing Finance Limited, and all the existing ratings are reaffirmed.

¹ Please refer to www.brickworkratings.com for definition of the Ratings
